Guest-of-Honour

Eric Chua - Senior Parliamentary Secretary, Ministry of Law and Ministry of Social and Family Development, Singapore

Special guest performances

Muscular Dystrophy Association Singapore (MDAS)
Beautiful Mind Charity Singapore (BMC)
SUN-DAC

Welcome Message

We are delighted to welcome you to our anniversary celebration and are deeply honoured that you have chosen to spend time with us. Today is a moment to reflect on our shared journey – one which many of you helped shape by raising awareness and championing inclusivity in our workplace.

We are privileged to watch the performances of SUN-DAC, Beautiful Mind Charity, Muscular Dystrophy Association (Singapore) and our own choir, dbSing. Through music, our performers express their passion and determination.

We celebrate how far we have come, yet we are mindful that more can be done to nurture an environment that increases the presence, participation and contribution of people with disabilities, empowering them to contribute meaningfully.

Enjoy the music – and let it move us not only to listen, but to act.

Bernd Starke (Lead)
on behalf of dbEnable Team

About dbEnable

dbEnable Singapore began as a modest initiative to foster inclusivity within our workplace. Over the years, it has grown into a dynamic and supportive community, championing accessibility and empowerment for all employees.

Our initiatives include the annual Work Placement Programme, which gives students valuable exposure to the banking industry, and our Neurodiversity@Work programme, which taps into the strengths of neurodivergent employees. We also host awareness-raising lunch talks in collaboration with charity organisations that support persons with disabilities. Each year, we proudly participate in the Purple Parade, celebrating and advocating for the disability community.

We work closely with SG Enable and the Singapore Business Network on DisAbilities (SBNoD) – a coalition of businesses in Singapore across various industries committed to sharing expertise, experience, networks and resources to help advance the inclusion of persons with disabilities.

Voices of dbEnable

Thank you DB for seeing my abilities, not otherwise.
dbEnable stands for Essence over Forms.

- Alan Pek Kian Aik

Everyone has a role to play in fostering inclusivity, and every contribution – big or small – goes a long way. Let's continue to take meaningful steps together toward greater understanding and inclusion.

- Kenny Khoo

When we choose to show up for others, we create the kind of workplace where everyone feels seen, heard and valued.

- Hua-Han Ong

Thank you for being part of this meaningful journey towards inclusion. Together, we grow by embracing one another's unique abilities and believing in the potential of every individual.

- Eva Chong

Performed by: SUN-DAC, BMC, MDAS, dbSing

SUN-DAC

SUN-DAC is a non-profit organisation that serves and supports persons with disabilities. In 2018, it launched the Chinese Drums Ensemble, offering its beneficiaries a powerful new way to engage with music and experience the joy of collective performance.

Despite the challenges encountered during rehearsals, the ensemble members have shown remarkable dedication and resilience. Their determination and teamwork have shaped them into an inspiring group of performers. Under the expert guidance of Mr. Ngoh Heng Seng from the Singapore Chinese Orchestra and Mr. Augustine Chong, they continue to grow musically and emotionally - bringing energy and heart to every beat of the drum.

The group has showcased their talents at events such as the “COLOUR YOUR WORLD” concert in 2018 and the “Love Our Libraries and Archives (LOLA)” event in 2023.

Beautiful Mind Charity Singapore

Beautiful Mind Charity Singapore (BMC) is a philanthropic organisation founded in 2012 with a mission to promote cultural exchange and social harmony through music. BMC works closely with underprivileged communities and individuals with special needs, empowering them to grow both artistically and personally.

At the heart of its outreach is the Beautiful Mind Music Academy (BMMA)—an inclusive education initiative that supports children with special needs. BMMA helps students discover the joy of music while building skills that foster personal growth, fulfilment, and future participation in professional music.

The BMMA Choir will perform “One Dream” while the BMMA Quintet will present a classical medley mash-up.

Muscular Dystrophy Association Singapore

Since 2000, the Muscular Dystrophy Association (Singapore) has been dedicated to supporting individuals living with muscular dystrophy and their families. Through a range of services and programmes, MDAS empowers its members by building confidence and helping them explore their full potential.

The performance features Timothy Chan, Oh Boon Keng, Shalom Lim, William Eng, Daniel Sng, Muhammad Saifudeen and Lim Kay Choong – a group united by their shared love for music and singing. With the support of musicians from the Volunteer Guitar Connection (VGC), they work tirelessly to overcome physical challenges and bring their passion for music to life on stage.

MDAS and VGC have collaborated on many events, including ones organised by dbEnable, and the Purple Parade, spreading a powerful message of inclusion and resilience through music.

dbSing (Deutsche Bank Singapore Choir)

dbSing is a volunteer choir formed in 2023 by employees of Deutsche Bank Singapore, united by a shared belief in the power of music to connect communities and promote inclusion. The group brings together colleagues from across business functions – many of whom had no prior choral experience.

Under the direction of choral conductor Kenny Khoo, dbSing has grown in both confidence and cohesion. Their debut performance at Deutsche Bank's dbDiversity Celebrates Christmas 2023 marked the beginning of their journey, and they have since continued to lend their voices to various events across the bank.

Their performance is a celebration of unity – demonstrating how music can bridge communities, foster understanding, and contribute to a more inclusive world, one song at a time.
