Rating methodologies increasingly reflect new resolution regime and therefore require more differentiation

	MOODY'S	STANDARD & POOR'S	FitchRatings	DBRS
Deposits / Derivatives / Swaps Counterparties	A3 ⁽¹⁾	N/A	expected in 4Q16 ⁽²⁾	A(high)
Senior unsecured	Baa2	BBB+	A-	A(low)
Tier 2	Ba2	BB+	BBB+	-
Legacy T1	B1	B+	BB+	-
AT1	B1	B+	BB	-

- Counterparty assessment is relevant for more than 95% of DB's clients
- Fitch to introduce a derivative counterparty rating in 4Q16

Note: Ratings are as of 27 October 2016

- (1) Moody's deposit rating is A3 and the Counterparty Risk Assessment (CRA) is A3(cr). CRAs are opinions on the likelihood of default by an issuer on certain senior operating obligations, including payment obligations associated with derivatives and letters of credit. CRAs are not explicit ratings as they do not take account of the expected severity of loss in the event of default
- (2) Part of Fitch's Global Bank Rating Criteria, published on 18 July 2016

Rating landscape – senior unsecured and short-term ratings

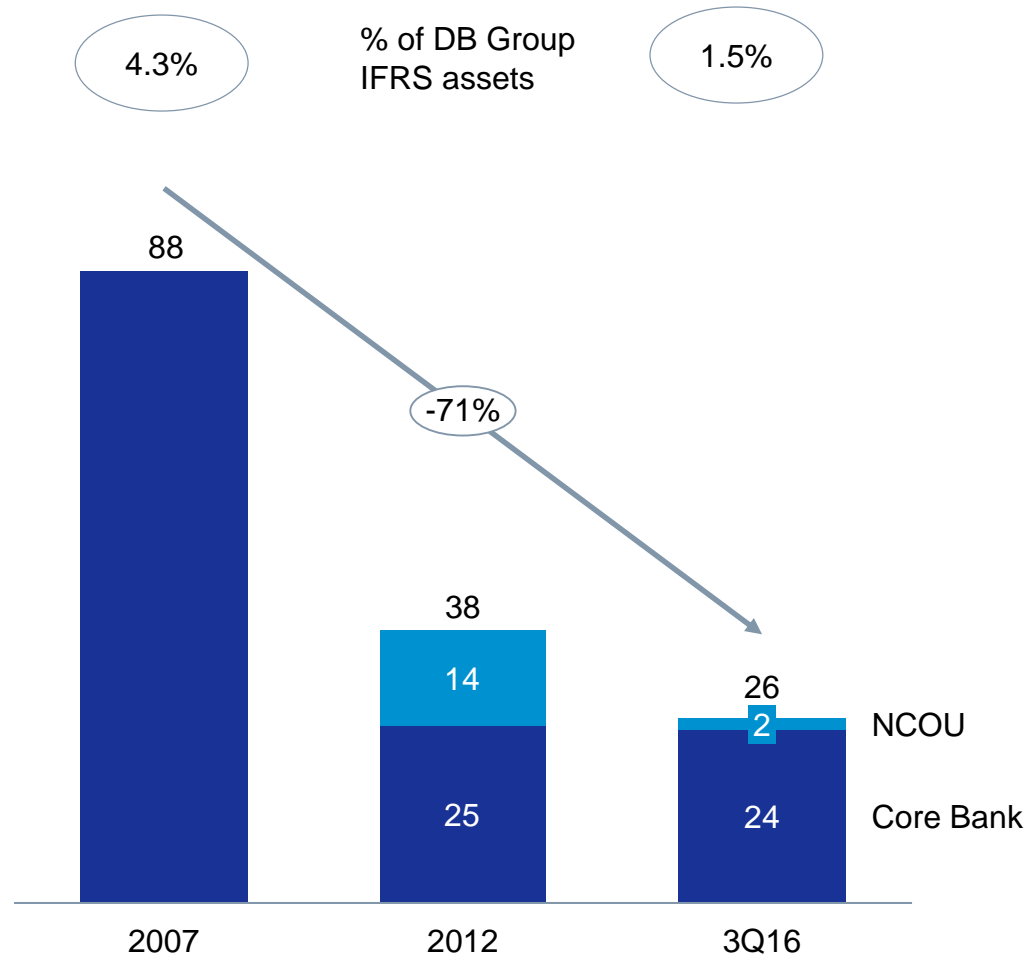

Note: Data from company information / rating agencies, as of 27 October 2016. The chart shows current senior unsecured ratings. Short-term ratings may differ given agencies have more than one linkage between long-term and short-term rating

Strong decline in Level 3 assets

In EUR bn, unless otherwise stated

NCOU disposals significant driver in recent past

Comments

- Level 3 classification does not explicitly imply an asset is more risky. Level 3 assets are instruments where the fair value of one or more parameters cannot be determined directly by market information and where pricing techniques must be employed
- Sensitivity analysis around the uncertainty of unobservable market parameters (consistent with prevailing market evidence) shows limited downside of EUR 1.1bn (~20 bps pro-forma impact on 3Q16 CET1 ratio) versus a potential increase in asset valuations of EUR 1.6bn (~30 bps impact on 3Q16 CET1 ratio)
- Level 3 assets only account for 1.5% of DB Group assets
- Level 3 assets include Commercial Real Estate loans, some municipal bonds as well as OTC derivatives. As of 30 Sept 2016, ~70% of Level 3 assets are financial assets available for sale and trading securities - with the intention for sale within the next 12 months

Litigation update

In EUR bn

Litigation reserves

- Discussions with the DOJ to resolve its investigation of Deutsche Bank's pre-financial crisis RMBS business are ongoing

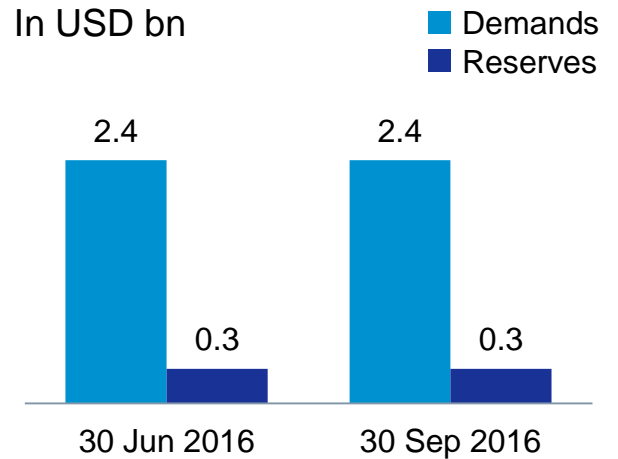

Contingent liabilities

- Decrease q-o-q primarily driven by favorable closure of some investigations and by provisions taken in certain other matters, offset by certain matters where we now have the ability to estimate outflows

Mortgage repurchase demands/reserves⁽¹⁾

In USD bn

- Reserves treated as negative revenues in NCOU and remained stable from 2Q2016 to 3Q2016
