Explanatory note

This Report on Form 6-K contains the following exhibits:

Exhibit 99.1: Deutsche Bank AG's Press Release, dated January 31, 2013, announcing its preliminary results for the quarter and year ended December 31, 2012.

Exhibit 99.2: Presentation of Anshu Jain, Co-Chairman of the Management Board, and Stefan Krause, Chief Financial Officer, given at Deutsche Bank AG's Analyst Call on January 31, 2013.

Exhibit 99.3: Presentation of Juergen Fitschen and Anshu Jain, Co-Chairmen of the Management Board, given at Deutsche Bank AG's Press Conference on January 31, 2013.

Exhibit 99.4: 4Q2012 Financial Data Supplement, providing details of the preliminary results.

This Report on Form 6-K and Exhibits 99.1 and 99.4 are hereby incorporated by reference into Registration Statement No. 333-184193 of Deutsche Bank AG. Exhibits 99.2 and 99.3 are not so incorporated by reference.

The results provided hereby are presented under International Financial Reporting Standards (IFRS) and are preliminary and unaudited. Such results do not represent a full set of financial statements in accordance with IAS 1 and IFRS 1. Therefore, they may be subject to adjustments based on the preparation of the full set of financial statements for 2012.

Forward-looking statements contain risks

This report contains forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about our beliefs and expectations. Any statement in this report that states our intentions, beliefs, expectations or predictions (and the assumptions underlying them) is a forward-looking statement. These statements are based on plans, estimates and projections as they are currently available to the management of Deutsche Bank. Forward-looking statements therefore speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which we derive a substantial portion of our trading revenues, potential defaults of borrowers or trading counterparties, the implementation of our strategic initiatives, the reliability of our risk management policies, procedures and methods, and other risks referenced in our filings with the U.S. Securities and Exchange Commission. Such factors are described in detail in our 2011 Annual Report on Form 20-F, which was filed with the SEC on March 20, 2012, on pages 6 through 21 under the heading "Risk Factors." Copies of this document are readily available upon request or can be downloaded from www.deutsche-bank.com/ir.

Use of non-GAAP financial measures

This report contains non-GAAP financial measures, which are measures of our historical or future performance, financial position or cash flows that contain adjustments that exclude or include amounts that are included or excluded, as the case may be, from the most directly comparable measure calculated and presented in accordance with IFRS in our financial statements. Examples of our non-GAAP financial measures and the most direct comparable IFRS financial measures are set forth in the table below:

<u>Non-GAAP Financial Measure</u>	<u>Most Directly Comparable IFRS Financial Measure</u>
IBIT attributable to Deutsche Bank shareholders (target definition)	Income (loss) before income tax
Average active equity	Average shareholders' equity
Pre-tax return on average active equity	Pre-tax return on average shareholders' equity
Pre-tax return on average active equity (target definition)	Pre-tax return on average shareholders' equity
Total assets adjusted	Total assets
Total equity adjusted	Total equity
Leverage ratio (target definition) (total assets adjusted to total equity adjusted)	Leverage ratio (total assets to total equity)

For descriptions of these non-GAAP financial measures and the adjustments made to the most directly comparable IFRS financial measures to obtain them, please refer to the pages 15 through 17 of Exhibit 99.4 hereto and to the following portions our 2011 Annual Report on Form 20-F: (i) for the leverage ratio (target definition), as well as the total assets adjusted and total equity adjusted figures used in its calculation, to "Item 11: Quantitative and Qualitative Disclosures about Credit, Market and Other Risk – Balance Sheet Management", and (ii) for the other non-GAAP financial measures listed above, to pages S-16 through S-18 of the supplemental financial information.

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Implementation of new strategy with significant impact on 2012 results

Update on Strategy 2015+

- Management proceeds with implementation of new strategy, including establishing Non-Core Operations Unit (NCOU) and executing Operational Excellence Program (OpEx).
- Actions taken are reflected in specific accounting effects, notably impairments of goodwill and other intangible assets and further specific charges. The results were also impacted by significant litigation related charges. Together, these items resulted in a EUR 2.6 billion loss before income taxes in 4Q2012.
- 4Q2012 income before income taxes (IBIT), after adjusting for the impairments of goodwill and other intangible assets and significant litigation related charges, which together amount to EUR 2.9 billion, was EUR 0.3 billion, to which the Core Bank contributed EUR 1.0 billion.
- 2012 IBIT, after adjusting for the aforementioned charges, which together amount to EUR 3.5 billion for the full year, was EUR 4.9 billion, to which the Core Bank contributed EUR 6.5 billion.
- At the same time management has accelerated capital formation and de-risking, which resulted in a pro-forma Basel 3 fully-loaded Core Tier 1 capital ratio of 8.0% at 31 December 2012. Management now aims to achieve 8.5% as of 31 March 2013.
- OpEx on track with EUR 0.4 billion of savings realized in second half of 2012
- Implementation of a clear framework for a deep long-term cultural change
- Creation of sustainable and respected compensation practices
- Full year variable compensation relative to revenues decreased to longtime low of 9%
- Cash dividend of EUR 0.75 per share recommended

Full year 2012 results

- IBIT was EUR 1.4 billion (2011: EUR 5.4 billion), net income was EUR 0.7 billion (2011: EUR 4.3 billion)
- Revenues were EUR 33.7 billion, up from EUR 33.2 billion in 2011
- Noninterest expenses of EUR 30.6 billion, which was an increase of EUR 4.6 billion, were significantly impacted by EUR 1.9 billion impairments of goodwill and other intangible assets, EUR 1.6 billion of significant litigation related charges, and further specific items

 Phone +49 69 910 35395, Fax +49 69 910 38591

Internet: www.db.com/ir
 E-Mail: db.ir@db.com

- Pre-tax return on average active equity (RoE) of 2.4% in 2012 (2011: 10.3%)
- Cost/income ratio of 90.8% (2011: 78.2%)
- Basel 2.5 Core Tier 1 ratio at 11.6% as of 31 Dec 2012 (2011: 9.5%)

Fourth quarter 2012 results

- Loss before income taxes was EUR 2.6 billion (4Q2011: loss before income taxes of EUR 0.4 billion), net loss was EUR 2.2 billion (4Q2011: net profit of EUR 0.2 billion)
- Revenues were EUR 7.9 billion, up 14% versus 4Q2011 (EUR 6.9 billion)
- Noninterest expenses of EUR 10.0 billion, which was an increase of EUR 3.3 billion, were significantly impacted by EUR 1.9 billion impairments of goodwill and other intangible assets, EUR 1.0 billion of significant litigation related charges, and further specific items

Deutsche Bank (XETRA: DBKGn.DE / NYSE: DB) today reported preliminary unaudited figures for 4Q2012 and the full year 2012 and provides progress update on Strategy 2015+.

Jürgen Fitschen and Anshu Jain, Co-Chairmen of the Management Board and the Group Executive Committee, said: “This is the most comprehensive reconfiguration of Deutsche Bank in recent times. With the launch of Strategy 2015+ in September, we embarked upon the path of deliberate but sometimes uncomfortable change in order to deliver long term, sustainable success for the Bank. Simultaneously, we set the bank on course for fundamental cultural change. This journey will take years, not months.

While several actions taken to mobilize Strategy 2015+ had an expected material impact on our fourth quarter financial results, we are encouraged by the initial results, especially with the achievement of an 8.0% pro-forma Basel 3 fully-loaded Core Tier 1 ratio. This is equivalent to an equity raising of at least EUR 8 billion for the year 2012. Our business divisions achieved strong operating results and we made good progress in our Operational Excellence Program, achieving some EUR 400 million of savings in the second half of 2012.”

During 4Q2012, Deutsche Bank proceeded with the implementation of its Strategy 2015+, announced in September. As at 31 December 2012, the Bank’s pro-forma Basel 3 fully-loaded Core Tier 1 ratio was 8.0%, compared to less than 6% at the end of 2011, significantly above the Bank’s communicated target of 7.2% for year-end 2012. This development predominantly reflects strong delivery on portfolio optimization and de-risking of non-core activities, as well as model and process enhancements. The Bank raised its Basel 2.5 Tier 1 capital ratio to 15.3%, its highest level ever, up from 12.9% at the end of 2011.

In the second half of 2012, the Bank achieved a reduction in Basel 3 risk weighted asset equivalents of EUR 80 billion since 30 June 2012, versus our communicated target of EUR 90 billion for 31 March 2013.

As a result, Deutsche Bank raises its target for the Basel 3 fully-loaded Core Tier 1 capital ratio from 8.0% to 8.5% for 31 March 2013.

Underlying performance in the Bank's core businesses was strong. Group net revenues were EUR 33.7 billion in 2012, up from EUR 33.2 billion in the prior year. Provision for credit losses was EUR 1.7 billion in 2012, down from EUR 1.8 billion in 2011. Full year IBIT for the Group, after adjusting for the impairment of goodwill and other intangible assets and significant litigation related charges, which together amount to EUR 3.5 billion, was EUR 4.9 billion, to which the Core Bank contributed EUR 6.5 billion.

For 4Q2012, IBIT, after adjusting for the aforementioned charges, which together amount to EUR 2.9 billion, was EUR 0.3 billion, to which the Core Bank contributed EUR 1.0 billion.

As anticipated, several decisions taken by the Bank in the context of the mobilization of Strategy 2015+ had a material impact on 4Q2012 financial results. In 4Q2012 the Bank took impairment charges on goodwill and other intangible assets of EUR 1.9 billion, primarily relating to businesses acquired by Corporate Banking & Securities (CB&S) and Asset and Wealth Management (AWM) prior to 2003 and to businesses assigned to the NCOU. The impairment charges reflect the implementation of strategic initiatives, including accelerated de-risking of non-core activities, implementation of OpEx and the introduction of a new divisional structure including the creation of a dedicated NCOU. They also reflect the impact of market conditions on parameters underlying the valuation of these business units. The goodwill and intangibles impairment charges did not impact the Bank's pro-forma Basel 3 fully-loaded Core Tier 1 ratio.

In 4Q2012 the Bank also took EUR 1.0 billion of significant litigation related charges (significant meaning charges larger than EUR 100 million), reflecting adverse court rulings and developments in regulatory investigations.

Noninterest expenses increased by EUR 3.3 billion to EUR 10.0 billion compared to 4Q2011, significantly impacted by EUR 1.9 billion impairments of goodwill and other intangible assets and EUR 1.0 billion of significant litigation related charges. Noninterest expenses adjusted for these items were EUR 7.1 billion compared to

EUR 6.4 billion in 4Q2011. Adjusted noninterest expenses in 4Q2012 included further specific items of EUR 0.9 billion, comprising EUR 0.4 billion of cost-to-achieve (CtA) related to OpEx and the integration of Postbank and other charges related to the turnaround measures in the Bank's commercial banking activities in the Netherlands and a write-down of IT in AWM. The Bank met the published objectives of OpEx for year-end 2012, achieving savings of EUR 0.4 billion in the second half of 2012.

The Bank reported a loss before income taxes for 4Q2012 of EUR 2.6 billion (4Q2011: loss before income taxes of EUR 0.4 billion) and a net loss of EUR 2.2 billion (4Q2011: net income of EUR 0.2 billion). For the full year 2012, Deutsche Bank's IBIT was EUR 1.4 billion (2011: EUR 5.4 billion); 2012 net income was EUR 0.7 billion (2011: EUR 4.3 billion).

The management is determined to bring about deep cultural change at Deutsche Bank. Short term measures are an overhaul of the compensation practices and the continued tightening of the control environment. The Bank significantly reduced the bonus pool. Full year variable compensation is down to 9% of revenues – the lowest level for many years. Additionally, the Compensation Panel, chaired by Jürgen Hambrecht, made a series of recommendations which played a part already in the 2012 compensation. The Panel recommended, for example, that the Bank reduces deferrals, thus reducing the compensation cost for future years. It also advised that measures of performance for clients play a greater role in performance management assessments. Longer term measures towards achieving deep cultural change include issues like client integrity, operational discipline and cross-silo cooperation. These areas of focus were identified by conducting the most comprehensive dialogue with employees in recent years.

The Management Board and the Supervisory Board will propose a cash dividend of EUR 0.75 per share for 2012 at the Annual General Meeting on 23 May 2013.

Capital, Liquidity and Funding

Group	Dec 31, 2012	Sep 30, 2012	Dec 31, 2011
in € bn (unless stated otherwise)			
T1 capital ratio ¹ (in %)	15.3%	14.2%	12.9%
CT1 capital ratio ¹ (in %)	11.6%	10.7%	9.5%
Risk-weighted assets	334	366	381
Liquidity reserves ^{2,3}	>230	224	223
Total assets (IFRS)	2,012	2,186	2,164
Total assets (adjusted)	1,199	1,281	1,267
Leverage ratio (adjusted)	21	21	21

- 1) based on Basel 2.5
- 2) Dec 2011 & Sep 2012 excluding Postbank, Dec 2012 including Postbank liquidity reserves in excess of €25 bn
- 3) An increase of € 8.1bn in Dec 2012, € 7.5bn in Sep 2012 and € 3.9bn in Dec 2011 has been made to ensure a consistent recognition of liquidity reserves which cannot be freely transferred across the group, but which are available to mitigate stress outflows in the entities in which they are held

The Bank's Basel 2.5 Core Tier 1 capital was 11.6% at the end of 4Q2012, up from 10.7% at the end of 3Q2012. The increase in our Core Tier 1 capital ratio was largely driven by EUR 32 billion lower RWA as well as reduced securitization capital deduction items both a result of our successful targeted management action and de-risking program.

The Basel 3 pro-forma Core Tier 1 capital ratio of 8.0% as of 31 December 2012 reflects EUR 55 billion of risk mitigation in 4Q2012 including the above mentioned Basel 2.5 effects.

Liquidity reserves were in excess of EUR 230 billion with approximately 50% being in cash and cash equivalents. Starting December 2012 the definition of the group wide liquidity reserves includes reserves held on a Postbank AG level, which contributed in excess of EUR 25 billion at year-end.

Over the course of 4Q2012 we raised a further EUR 1.9 billion of debt funding taking the total term funding to EUR 17.9 billion. The average spread of our issuance over the relevant floating index was 64bps for the full year 2012 with an average tenor of 4.2 years.

In 2013, we have modest refinancing needs of up to EUR 18 billion which we intend to raise through a variety of funding channels including benchmark issuances, private placements as well as retail networks.

Leverage ratio (adjusted) remained materially unchanged at 21 compared to the previous quarter, as a EUR 82 billion reduction in adjusted assets was offset by lower total equity (adjusted).

Segment Results

In 4Q2012, the Bank implemented its new segment structure, which includes the formal establishment of a new business division called Non-Core Operations Unit (NCOU). The NCOU has been created by the reassignment of management responsibilities for non-core operations and the allocation of portfolios and individual assets that qualified under the selection criteria of the NCOU. The new segment structure also led to an integrated Asset & Wealth Management (AWM) division, which now also includes the former Corporate Banking & Securities (CB&S) passive and third-party alternative assets businesses such as exchange traded funds (ETFs). Previously reported financial data has been restated from Dec 2010 onwards in accordance with the new segment structure.

Corporate Banking & Securities (CB&S)

in € m. (unless stated otherwise)	4Q2012	3Q2012	4Q2011	FY2012	FY2011
Net revenues	3,430	4,002	2,397	15,648	14,109
Provision for credit losses	58	23	49	121	90
Noninterest expenses	3,918	2,861	2,036	12,580	10,341
Noncontrolling interest	2	9	1	17	21
Income (loss) before income taxes	(548)	1,109	310	2,931	3,657
Cost/income ratio	114%	71%	85%	80%	73%
Pre-tax return on average active equity	(13)%	24%	9%	16%	25%

Fourth quarter 2012

Net revenues increased by EUR 1.0 billion, or 43%, compared to 4Q2011. Net revenues included EUR 516 million related to the impact of a refinement in the calculation methodology of the Debt Valuation Adjustment (DVA) on certain derivative liabilities in 4Q2012. Excluding the impact of DVA, net revenues increased by EUR 517 million, or 22%, compared to 4Q2011. The main driver for the improvement were Origination and Advisory net revenues, which increased by EUR 271 million, or 63%, compared to 4Q2011, mainly due to higher Debt and Equity Origination revenues, reflecting increased corporate debt issuance and ECM activity respectively. Furthermore, Sales & Trading (debt and other products) net revenues increased by EUR 157 million, or 12%, compared to 4Q2011, despite a loss of EUR 186 million in 4Q2012 relating to Credit Valuation Adjustment (CVA) due to the impact of a refinement in the calculation methodology and RWA mitigation. The increase was mainly due to higher flow product revenues in Credit, reflecting improved market conditions.

Noninterest expenses increased by EUR 1.9 billion, or 92 %, compared to 4Q2011. The current quarter included EUR 1.2 billion impairment of intangible assets. Excluding the impairment of intangible assets, noninterest expenses increased by EUR 708 million, driven by higher litigation related charges, CtA related to OpEx in 4Q2012, and higher performance related compensation due to a higher deferral rate in 2011. In addition, adverse foreign exchange rate movements contributed to the increase in expenses compared to 2011. Increases were partly offset by lower non-performance compensation related costs reflecting the implementation of OpEx.

Compared to 3Q2012 noninterest expenses increased by EUR 1.1 billion, also primarily driven by the aforementioned impairment of intangible assets and litigation related charges. Excluding this impairment, noninterest expenses decreased by EUR 117 million, or 4% compared to 3Q2012, driven by lower CtA related to OpEx, and efficiency savings including lower compensation expenses reflecting the implementation of OpEx.

Income before Income taxes decreased by EUR 858 million compared to 4Q2011, mainly reflecting the aforementioned impairment of intangible assets, litigation related charges and CtA relating to OpEx, partly offset by increased revenues.

Global Transaction Banking (GTB)

<u>in € m. (unless stated otherwise)</u>	<u>4Q2012</u>	<u>3Q2012</u>	<u>4Q2011</u>	<u>FY2012</u>	<u>FY2011</u>
Net revenues	1,066	1,001	929	4,006	3,608

Noninterest expenses	1,272	645	604	3,169	2,411
Income (loss) before income taxes	(259)	322	260	669	1,039
Cost/income ratio	119%	64%	65%	79%	67%
Pre-tax return on average active equity	(35)%	42%	34%	22%	34%

Fourth quarter 2012

In 4Q2012, GTB initiated measures related to the turnaround of the acquired commercial banking activities in the Netherlands. These measures as well as a litigation related charge led to a net charge of EUR 534 million in 4Q2012 and hence limit the comparability of the financial performance to prior quarters. The measures related to the turnaround include the settlement of the credit protection received from the seller, an impairment of an intangible asset as well as restructuring charges.

Net revenues in 4Q2012 increased by EUR 137 million, or 15%, compared to 4Q2011. Revenues in the current quarter included a positive effect related to the

aforementioned settlement. Outside the Netherlands, GTB's revenue performance was resilient, benefitting from strong volumes while interest rate levels continued to be low.

Provision for credit losses decreased by EUR 11 million, or 18%, compared to 4Q2011, mainly reflecting lower provisions in the Trade Finance business.

Compared to 3Q2012 provision for credit losses increased by EUR 18 million, or 53%, driven by the commercial banking activities acquired in the Netherlands as well as higher provisions in the Trade Finance business.

Noninterest expenses increased by EUR 668 million, or 111 %, in 4Q2012 compared to 4Q2011 driven by charges related to the aforementioned turnaround, including the settlement, as well as a litigation related charge.

Compared to 3Q2012 noninterest expenses increased by EUR 628 million also driven by the aforementioned charges, which were partly offset by lower compensation-related expenses.

Loss before income taxes of EUR 259 million in 4Q2012 was resulting from the turnaround measures as well as a litigation related charge. Excluding the net charge mentioned above, income before income taxes for the reporting period was above 3Q2012.

Asset and Wealth Management (AWM)

in € m. (unless stated otherwise)	4Q2012	3Q2012	4Q2011	FY2012	FY2011

Cost/income ratio	123%	90%	81%	96%	77%
Pre-tax return on average active equity	(18)%	8%	15%	3%	17%

Fourth quarter 2012

Net revenues decreased by EUR 72 million, or 6%, compared to 4Q2011. The decrease was mainly driven by EUR 65 million effects from mark-to-market movements on investments held to back insurance policyholder claims in Abbey Life, which are offset in noninterest expenses, EUR 52 million in RREEF driven by performance related one-off effects in 2011 as well as lower revenues of EUR 34 million in Alternative Fund Solutions due to reduced demand for hedge fund products. Partly offsetting were higher revenues from advisory/brokerage of EUR 58 million mainly due to WM Asia/Pacific and WM Americas.

Noninterest expenses increased by EUR 403 million, or 42%, compared to 4Q2011, mainly driven by Scudder related impairments of EUR 202 million, IT-related impairments of EUR 90 million as well as litigation related charges, partly offset by the aforementioned effects related to Abbey Life.

Compared to 3Q2012, noninterest expenses increased by EUR 249 million, or 23%, mainly driven by the aforementioned effects, partly offset by lower reorganization related spend and lower compensation costs reflecting the implementation of OpEx.

The loss before income taxes of EUR 260 million in 4Q2012 was primarily driven by the impairments mentioned above.

Private & Business Clients (PBC)

Pre-tax return on average active equity	10%	14%	11%	13%	16%

Fourth quarter 2012

Net revenues were down EUR 175 million, or 7%, compared to 4Q2011 primarily attributable to Consumer Banking Germany with a decrease of EUR 209 million, or 18 %, driven by lower contribution from purchase price allocation effects and a lower impact from releases from loan loss allowance recorded prior to consolidation. The decline in revenues also reflected a low interest environment. Advisory Banking revenues from Deposits and Payment Services were down EUR 23 million, or 4%, compared to 4Q2011, mainly driven by lower margins. Credit Product revenues increased due to higher margins in Advisory Banking International by EUR 10 million, or 2%. Advisory/brokerage revenues were up by EUR 33 million, or 17%, primarily in brokerage in Advisory Banking Germany.

Provision for credit losses decreased by EUR 67 million, or 24%, compared to 4Q2011 mainly related to Postbank. This excludes releases from Postbank related loan loss allowance recorded prior to consolidation of EUR 16 million. The impact of such releases is reported as net interest income.

Compared to 3Q2012 provision for credit losses were higher by EUR 27 million, or 15%, driven by Postbank.

Noninterest expenses decreased slightly by EUR 31 million, or 2%, compared to 4Q2011.

Compared to 3Q2012 noninterest expenses were up by EUR 64 million, or 3%, driven by higher costs-to-achieve related to Postbank integration and to OpEx.

Income before income taxes decreased by EUR 38 million, or 12%, compared to 4Q2011. Advisory Banking Germany decreased by EUR 85 million, mainly driven by higher costs related to Postbank integration, and Consumer Banking Germany decreased by EUR 45 million, driven by lower revenues. Advisory Banking International improved by EUR 92 million, driven by a higher equity pick-up related to our stake in Hua Xia Bank and higher credit product margins in Europe.

Non-Core Operations Unit (NCOU)

in € m. (unless stated otherwise)	4Q2012	3Q2012	4Q2011	FY2012	FY2011
Net revenues	(3)	400	(412)	1,058	879
Provision for credit losses	105	300	136	634	385
Noninterest expenses	973	602	1,029	2,749	2,554
Noncontrolling interest	11	(2)	(4)	33	14
Income (loss) before income taxes	(1,092)	(500)	(1,574)	(2,358)	(2,074)

Fourth quarter 2012

The performance of NCOU in each period is mainly driven by the timing and nature of specific items. In 4Q2012 such specific items included negative effects related to refinements to the CVA model, losses from sales of capital intensive securitization positions and various impairments. Partially offsetting was a gain from the sale of our EADS stake. 4Q2011 included a one-off impairment charge of EUR 407 million related to Actavis.

Provision for credit losses in the 4Q2012 decreased by EUR 31 million, or 23%, versus 4Q2011 and by EUR 196 million, or 65% versus 3Q2012. This decrease is mainly due to lower provisions in relation to IAS 39 reclassified assets.

Noninterest expenses were down by EUR 56 million, or 5%, compared to 4Q2011. Although 4Q2012 included EUR 400 million impairment of intangible assets, 4Q2011 was impacted by a EUR 135 million property related impairment charge, EUR 97 million related to BHF Bank and additional settlement costs.

Consolidation & Adjustments (C&A)

in € m. (unless stated otherwise)	4Q2012	3Q2012	4Q2011	FY2012	FY2011
Net revenues	(128)	(413)	236	(978)	(38)
Provision for credit losses	(1)	1	(0)	0	(1)
Noninterest expenses	583	(74)	157	617	253
Noncontrolling interest	(14)	(7)	(37)	(66)	(213)
Income (loss) before income taxes	(697)	(332)	117	(1,529)	(77)

Fourth quarter 2012

Loss before income taxes of EUR 697 million in 4Q2012 mainly included litigation related charges. It also reflects charges of EUR 133 million for UK and German bank levies. In addition, timing differences from different accounting methods used for management reporting and IFRS amounted to approximately negative EUR 60 million, mainly related to interest rate changes affecting economically hedged positions and to the reversal of prior period interest rate effects.

These figures are preliminary and unaudited. The Annual Report 2012 and Form 20-F will be published on 21 March 2013. For further details regarding the preliminary results, please refer to the 4Q2012 Financial Data Supplement which is available under <https://db.com/ir/financial-supplements>

The preliminary 4Q / FY2012 results will be discussed in an Analyst Call today:

Date: Thursday, 31 January 2013
Time: 08.00 CET
Speakers: **Anshu Jain**, Co-Chairman of the Management Board
Stefan Krause, Chief Financial Officer
Joachim Müller, Head of Investor Relations

The conference call will be transmitted through the following channels:

Phone: Germany: +49 69 566 036 000
U.K.: +44 203 059 8128
U.S.: +1 631 302 6546
Please dial in 10 minutes prior to the start of the call.
Webcast: <https://www.db.com/ir/video-audio>
(listen only) - live and replay -
Slides: <https://www.db.com/ir/presentations>

This release contains forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about our beliefs and expectations and the assumptions underlying them. These statements are based on plans, estimates and projections as they are currently available to the management of Deutsche Bank. Forward-looking statements therefore speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which we derive a substantial portion of our revenues and in which we hold a substantial portion of our assets, the development of asset prices and market volatility, potential defaults of borrowers or trading counterparties, the implementation of our strategic initiatives, the reliability of our risk management policies, procedures and methods, and other risks referenced in our filings with the U.S. Securities and Exchange Commission. Such factors are described in detail in our SEC Form 20-F of 20 March 2012 under the heading “Risk Factors.” Copies of this document are readily available upon request or can be downloaded from www.deutsche-bank.com/ir.

This release also contains non-IFRS financial measures. For a reconciliation to directly comparable figures reported under IFRS, refer to the 4Q2012 Financial Data Supplement, which is available at www.deutsche-bank.com/ir.

[financial transparency.](#)

Key panel findings

- Ensure future performance is not disproportionately impacted by deferral from prior years
- Pay philosophy to place more emphasis on the ,how' of individual performance, and on the risks taken
- Bail-in instruments, eg as recommended by Liikanen report, to be considered
- Potential changes to Management Board and Supervisory Board compensation structure
- Independent compensation panel will continue to work until March 2013 and then disclose their findings

CIR (in %)	114	85	71	80	73
Pre-tax RoE (in %) ⁽¹⁾	(13)	9	24	16	25

- Solid CB&S revenues down 14% reflecting seasonal slow-down versus a strong 3Q. This includes EUR 516 m of DVA gains on uncollateralized derivative liabilities recorded in CB&S other. Excluding these DVA gains, FY2012 revenues were up 7% versus 2011 while maintaining historically low VaR
- Cost savings achieved in FY2012 more than offset by goodwill impairment (EUR 1,174 m), costs-to-achieve for the Operational Excellence Program (EUR 315 m), higher litigation related charges and adverse FX impact
- Excluding the goodwill impairment and costs to achieve, FY2012 IBIT was up 21% vs. FY2011 reflecting increased client activity and improved cost management
- Good progress on restructuring, 1,400 of the 1,500 announced headcount reductions across CB&S and infrastructure functions completed by 31 Dec 2012

- (1) Based on average active equity
(2) IBIT adjusted for impairment for goodwill and other intangibles
(3) Includes net DVA / CVA gain and litigation related charges

Sales & Trading debt and other products

Revenues

Key features

- Overall**
- Revenues down q-o-q reflecting the seasonal slow-down and high levels of market activity in 3Q2012
 - 4Q12 revenues affected by EUR 186 m of negative CVA impact driven by a methodology refinement and RWA mitigation
 - FY2012 revenues up y-o-y driven by strong client demand in Rates and Credit
 - Ranked #1 in Overall Global Fixed Income by Greenwich Associates for the 3rd year in a row
- FX / Money Markets / Rates and Flow Credit / RMBS**
- FX 4Q2012 revenues down q-o-q despite highest ever fourth quarter volumes. Record FX volumes in FY2012, up 25% y-o-y, with continuing margin compression resulting in lower revenues
 - Money Market revenues down q-o-q driven by lower client activity and lower risk levels
 - Rates and Flow Credit revenues down q-o-q due to a seasonal decrease in client activity across regions. FY2012 revenues increased y-o-y
- Credit solutions**
- Revenues down q-o-q reflecting the seasonal slowdown. Full year revenues up y-o-y due to increased client demand
- Commodities**
- Revenues lower q-o-q due to reduced client activity

Sales & Trading equity

Revenues

In EUR m

Key features

Overall

- Solid performance in Equity Derivatives offset by lower revenues in Cash Equities and Prime Finance resulting in lower revenues q-o-q
- FY2012 revenues were in-line y-o-y with lower market activity offset by increased market share

Cash Equities

- Revenues held up well q-o-q, down only slightly despite the fourth quarter seasonal decline, supported by market share gains in Europe
- Flat revenues in FY2012 with particularly strong performance in North America and market share gains in Europe

Equity Derivatives

- Higher q-o-q revenues across all regions. FY2012 revenues up vs. 2011 due to solid revenues in North America, increased revenues in Europe, and strength in flow

Prime Brokerage

- Lower 4Q revenues q-o-q due to margin compression

Origination & Advisory

Revenues

In EUR m

Key features

- Overall**
 - Very strong performance y-o-y driven by higher volumes and market share gains
 - Ranked No.5 globally with record market share
 - Ranked No.1 in EMEA
 - Awarded 'Equity House of the Year' and 'Bond House of the Year' by IFR
- Advisory**
 - Revenues up q-o-q
 - Ranked No.6 globally, No.2 in EMEA
- Equity Origination**
 - Revenues significantly higher y-o-y reflecting increase in market share and industry-wide increase in issuance
 - Ranked No.5 globally, No.2 in EMEA
- Investment Grade**
 - Strong issuance activity across the market
 - Ranked No.2 in All International Bonds (Thomson Reuters)
 - Ranked No.3 in All Bonds in Euros (Thomson Reuters)
- High Yield / Leveraged Loans**
 - Record High Yield market activity
 - Increased market share in High Yield/Leverage Loans
 - Ranked No.4 globally, No.1 in EMEA

Note: Rankings refer to Dealogic (fee pool) and refer to Jan-Dec 2012 unless otherwise stated; figures may not add up due to rounding differences;
EMEA = Europe, Middle East and Africa

Global Transaction Banking

Income before income taxes

Key features

In EUR m	4Q12	4Q11	3Q12	FY2012	FY2011
Revenues	1,066	929	1,001	4,006	3,608
Prov. for credit losses	(53)	(64)	(35)	(168)	(158)
Noninterest exp.	(1,272)	(604)	(645)	(3,169)	(2,411)
IBIT	(259)	260	322	669	1,039
CIR (in %)	119	65	64	79	67
Pre-tax RoE (in %) ⁽¹⁾	(35)	34	42	22	34

- IBIT adversely impacted by a litigation related charge and turn-around measures of the commercial banking activities in the Netherlands totaling net EUR 0.5 bn
- Solid performance across major businesses and regions with seasonal slowdown towards year-end
- Adjusted non-interest expenses decreased q-o-q based on lower compensation-related expenses
- FY2012 revenues up y-o-y reflecting strong volumes and market share gains on track with 2015 aspiration trajectory

- (1) Based on average active equity
- (2) Include charges related to turn-around measures of the commercial banking activities in the Netherlands and litigation related charges
- (3) IBIT adjusted for impairment of goodwill and other intangible assets

Asset and Wealth Management

Income before income taxes

Key features

In EUR m

Impairment of goodwill and other intangible assets

4Q2012 specific items:

Cost-to-achieve related to OpEx (15)
Other specific items⁽³⁾ (167)

In EUR m

	4Q12	4Q11	3Q12	FY2012	FY2011
Revenues	1,100	1,172	1,232	4,466	4,277
Prov. for credit losses	(3)	(7)	(7)	(18)	(22)
Noninterest exp. ⁽¹⁾	(1,357)	(954)	(1,108)	(4,288)	(3,313)
IBIT	(260)	211	116	160	942
Invested assets ⁽²⁾	944	912	949	944	912
Net new money ⁽²⁾	(3)	(0)	(6)	(22)	(7)

- (1) Includes policyholder benefits and claims
- (2) In EUR bn
- (3) Other specific items include IT write-down AWM, one-time costs related to strategic review in AM and litigation related charges
- (4) IBIT adjusted for impairment of goodwill and other intangible assets

– AWM operational excellence project is well on track. Around 10% of the headcount has been reduced since summer resulting in positive underlying cost momentum

– Revenues were resilient year over year despite lower activity in our passives business and the headwinds caused by the conclusion of the strategic review

– Noninterest expenses were negatively impacted by higher non operational costs including impairments, OpEx restructuring and litigation related charges

– Asset outflows of EUR 22 bn for FY2012; the private bank attracted NNM of EUR 15 bn for the year offset by outflows in asset management, particularly from the institutional business which was impacted by the strategic review

Private & Business Clients

Income before income taxes

In EUR m

- (1) Does not include non-controlling interest

31 January 2013

Key features

In EUR m

	4Q12	4Q11	3Q12	FY2012	FY2011
Revenues	2,403	2,578	2,436	9,541	10,393
Prov. for credit losses	(216)	(283)	(189)	(781)	(1,185)
Noninterest exp.	(1,899)	(1,930)	(1,835)	(7,221)	(7,128)
IBIT	287	325	412	1,524	1,902
CIR (in %)	79	75	75	76	69
Pre-tax RoE (in %) (3)	10	11	14	13	16

- Reported IBIT of EUR 287 m mainly impacted by targeted increase of CtA from Postbank integration and OpEx Program, as well as negative PPA effects
- On an adjusted basis, strong IBIT of EUR 582 m despite continued difficult market environment and significant transformational challenges (platform implementation, business realignment, and closure of local funding gaps)
- Continued improvement of portfolio quality, partly driven by larger share of mortgage book. Y-o-y decline of CLPs largely driven by accounting effect related to Postbank consolidation
- AB Germany: Reported IBIT burdened by significant CtA. Adjusted IBIT solid, usual seasonal decline partly mitigated through higher brokerage revenues
- AB International: All countries with positive IBIT. Margin expansion especially in Italy; HuaXia Bank equity pick-up with strong increase
- CB Germany: Reported IBIT impacted by low interest rates, negative PPA effects and CtA, strong adjusted IBIT due to strict cost and risk management
- Postbank integration continues to be well on track

Agenda

1 Group results

2 Segment results

3 Key current issues

Litigation In EUR bn

Litigation reserves

- Increases attributable to developments in litigations and regulatory investigations
- Charges impacted 4Q2012 results in particular

Contingent liabilities

- Decreases driven by resolution of matters and establishment of provisions
- Increases driven by newly filed cases and adjustments to estimates
- Timing is hard to predict and contingent liability does not represent maximum possible legal losses

Mortgage repurchase demands/reserves

In USD

- Increase largely driven by putback demands by RMBS investors
- Provisioning level against demands is formulaic but outcomes in the event of litigation could vary
- Treated as negative revenues in NCOU

(1) Contingent liabilities, also referred to as reasonably possible losses above provisions, are recognized pursuant to accounting standards when an outflow of funds is determined to be more than remote (>10%) but less than probable (<50%) and an estimate of such outflow reliably can be made

De-risking in NCOU well on track

Major accomplishments in 2012
(Pro-forma Basel 3 RWA equivalent basis)

Former CB&S	— Portfolio de-risking, primarily from sales of low rated securitisations: EUR 23 bn (4Q EUR 7 bn)
Former PBC	— De-risking of SCP and other bond positions: EUR 3 bn (4Q EUR 2 bn)
Former CI	— Sale of Actavis and EADS stake: EUR 4 bn (both in 4Q)

Size of Non-Core Operations unit

- Note: Numbers may not add up due to rounding
- (1) Total assets according to IFRS adjusted for netting of derivatives and certain other components
 - (2) Changed due to refinements in netting and consolidation adjustments to adjusted assets between NCOU and the Core businesses - no overall impact to DB Group
 - (3) RWA plus equivalent of items currently deducted 50/50 from Tier 1/Tier 2 capital whereby the Tier 1 deduction amount is scaled at 10%
 - (4) AWM

NCOU: Capital accretion & asset breakdown

Capital accretion

In EUR bn	2011	2012	Δ
Total assets ⁽¹⁾	130	95	(35)
Risk weighted assets, Basel 3 fully loaded	>150	106	>(44)
Core tier 1 capital consumption, at 10%	>15.0	10.6	>(4.4)
Lower capital consumption		EUR >4.4 bn	
Regulatory capital impact from FY results ⁽²⁾		EUR ~(1.9) bn	
Regulatory Capital accretion ⁽³⁾	= EUR ~2.5 bn		

Total adjusted assets⁽¹⁾

In EUR bn, as of 31 Dec 2012

- (1) Total assets according to IFRS adjusted for netting of derivatives and certain other components
- (2) Excluding impairment of goodwill in 4Q12 of EUR (400) m and any associated tax impact
- (3) Under Basel 3 fully loaded

Funding

Funding profile further improved

2012

EUR 223 bn

Liquidity
reserves^{(2),(3)}

EUR > 230 bn

- (1) Including Postbank
- (2) 2011: Excluding Postbank; 2012: Including Postbank liquidity reserves in excess of EUR 25 bn from Dec 2012 onwards
- (3) An increase of EUR 8.1 bn in Dec 12 and EUR 3.9 bn in Dec 11 has been made to ensure a consistent recognition of liquidity reserves which cannot be freely transferred across the group, but which are available to mitigate stress outflows in the entities in which they are held
- (4) Pro-forma LCR includes estimates based on our interpretation of the BCBS rules, including 7 January 2013 release. Final application will be dependent on CRD 4 implementation within EU

Major achievements

- Highest share ever (62%) from most stable funding sources by end 2012
- 2012: EUR 17.9 bn issued in capital markets at average tenor of 4.2 years and average spread of 64 bps
- 2013: ~13% of funding plan (up to EUR 18 bn) already achieved by 30 Jan 13, including a successful EUR 1.75 bn 10y senior issue at mid swaps + 78 bps
- Local funding gap in Italy, Portugal & Spain closed
- Pro-forma Liquidity Coverage Ratio (LCR) of >95%⁽⁴⁾

Cautionary statements

This presentation contains forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about our beliefs and expectations and the assumptions underlying them. These statements are based on plans, estimates and projections as they are currently available to the management of Deutsche Bank. Forward-looking statements therefore speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which we derive a substantial portion of our revenues and in which we hold a substantial portion of our assets, the development of asset prices and market volatility, potential defaults of borrowers or trading counterparties, the implementation of our strategic initiatives, the reliability of our risk management policies, procedures and methods, and other risks referenced in our filings with the U.S. Securities and Exchange Commission. Such factors are described in detail in our SEC Form 20-F of 20 March 2012 under the heading “Risk Factors.” Copies of this document are readily available upon request or can be downloaded from www.db.com/ir.

This presentation also contains non-IFRS financial measures. For a reconciliation to directly comparable figures reported under IFRS, to the extent such reconciliation is not provided in this presentation, refer to the 4Q2012 Financial Data Supplement, which is accompanying this presentation and available at www.db.com/ir.

Our journey to global leadership in investment banking

1995: A call to action

 Germany's largest bank initially not appointed financial advisor for privatization of national telephone monopoly

 Deutsche Telekom
USD13bn Initial Public Offering & Privatization
November 1996

2012: A true global advisor

 Leading financial advisor on largest common stock follow-on offer in US USD 21bn) in sell down of AIG shares for US government

 Largest ever corporate European mandatory bond issuance for Volkswagen (EUR 3bn)

 Financial advisor to Nestle on acquisition of Pfizer Nutrition (USD 12bn)

 Sole bookrunner on the four biggest IPOs of all time, three of which in China: ABC (USD 22bn), ICBC (USD 22bn), AIA (USD 21bn)

The quantum and uncertainty of regulation is a challenge

Enormous level of scrutiny...

Culture: Deutsche Bank is at the forefront of cultural change

Review and implementation of sustainable and responsible compensation practices

Independent compensation review panel	Significant change underway	Status
 Dr. Theo Waigel Former Federal Minister of Finance of Germany	— Variable compensation as % of revenues reduced by >50% vs. pre-crisis	✓
 Dr. Jürgen Hambrecht Chairman of the panel and former CEO of BASF	— Deferral extended from 3 to 5 years for Top 150 management ('cliff vesting')	✓
 Michael Dobson CEO of Schroders	— Multi-year guarantees eliminated	✓
 Dr. Michael Otto Chairman of the Supervisory Board of Otto Group	— Transparency on compensation increased	✓
 Morris W. Offit Chairman of Offit Capital and Independent Director of AIG	— Future burden from deferrals reduced	✓
	— Role of client metrics, cultural priorities and risk management feedback in compensation decisions enhanced	ongoing
	— Fairer distribution of reward among stakeholders	ongoing

Balancing the interests of stakeholders

Variable comp⁽¹⁾ has decreased significantly... ..to an all-time low

(1) Variable remuneration awarded including deferrals. No adjustment made for pay mix change in 2010 (EUR 742 m)

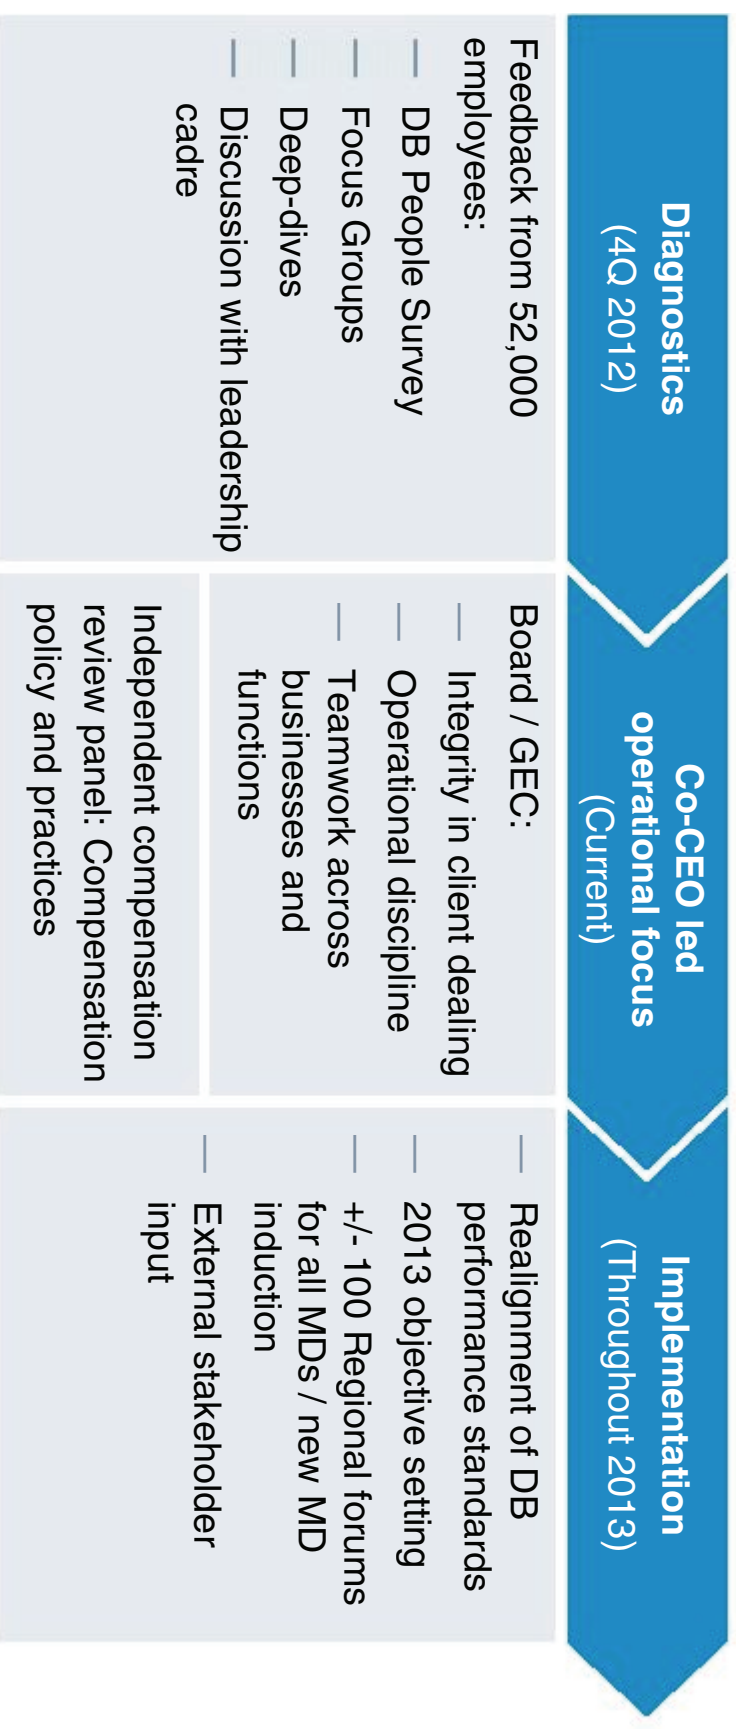

We have fundamentally tightened our control environment

1 Enablement	<ul style="list-style-type: none">— Over 250,000 mandatory training assignments completed— 125 new compliance training courses introduced— Mandatory Business Conduct and Ethics training for all employees roll-out planned
2 Systems / processes	<ul style="list-style-type: none">— Client adoption procedures tightened— New product approval processes enhanced— Scope of Reputational Risk Committees expanded— Trade Detection Testing system rolled-out— Better escalation procedures adopted— Independent Benchmark Submission Oversight function established (Libor)
3 Monitoring	<ul style="list-style-type: none">— ‘Red flag’ system monitoring rolled out for AWM and strengthened for CB&S and GTB— By 4Q2012, CB&S / GTB ‘red flag’ incidents down by nearly 50% vs. end-2011
4 Consequence management	<ul style="list-style-type: none">— Outcome of monitoring impacts promotion and compensation— Stricter sanctions implemented

A clear framework for long-term cultural change

Strategy 2015+: Committed to delivery

Strong underlying performance enabled us to embark upon a path of deliberate but tough decisions

We are convinced that this path will lead us in the right direction – becoming the world's leading client-centric global universal bank

This is a journey that we will complete in years, not months

Together, we are determined and encouraged by initial results and the highly supportive feedback from clients and employees

Cautionary statements

This presentation contains forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about our beliefs and expectations and the assumptions underlying them. These statements are based on plans, estimates and projections as they are currently available to the management of Deutsche Bank. Forward-looking statements therefore speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which we derive a substantial portion of our revenues and in which we hold a substantial portion of our assets, the development of asset prices and market volatility, potential defaults of borrowers or trading counterparties, the implementation of our strategic initiatives, the reliability of our risk management policies, procedures and methods, and other risks referenced in our filings with the U.S. Securities and Exchange Commission. Such factors are described in detail in our SEC Form 20-F of 20 March 2012 under the heading “Risk Factors.” Copies of this document are readily available upon request or can be downloaded from www.db.com/ir.

This presentation also contains non-IFRS financial measures. For a reconciliation to directly comparable figures reported under IFRS, to the extent such reconciliation is not provided in this presentation, refer to the 4Q2012 Financial Data Supplement, which is accompanying this presentation and available at www.db.com/ir.

1 Includes revenues from Postbank since consolidation on December 3, 2010.

2 The impact of releases of certain allowances relates to loan loss allowances which were established by Postbank prior to change of control. Releases of such allowances reduce provision for credit losses in Postbank's stand-alone financial statements. At the consolidated level of DB Group / PBC, these releases lead to an increase in interest income (because the underlying loans were

6 Risk weighted assets starting December 2011 are based upon Basel 2.5 rules; prior periods are based upon Basel 2.

7 Starting 2012 the Group derives internal demand for regulatory capital assuming a Core Tier 1 ratio of 9.0% (previously based on a Tier 1 ratio of 10%). For details please refer to definition on page 16 and 17. Average active equity for 2011 was adjusted accordingly.

- 3 consolidated at their respective fair value at change of control).
- 3 Reflects compensation and benefits of front office employees and allocated compensation and benefits of related Infrastructure functions (allocation on a pro forma basis).
- 4 Reflects front office employees and related Infrastructure employees (allocated on a pro forma basis).
- 5 Segment assets represent consolidated view, i.e. the amounts do not include intersegment balances.
- 8 Includes costs related to Postbank integration.
- 9 Mainly Postbank (incl. PPA, noncontrolling interest and other transaction-related components).

financial transparency. 15

Profitability ratios

Return on average shareholders' equity (post-tax): Net income attributable to Deutsche Bank shareholders (annualized) as a percentage of average shareholders' equity.

Pre-tax return on average shareholders' equity: Income (loss) before income taxes attributable to Deutsche Bank shareholders (annualized), which is defined as IBIT excluding pre-tax noncontrolling interests, as a percentage of average shareholders' equity.

Pre-tax return on average active equity: Income (loss) before income taxes attributable to Deutsche Bank shareholders (annualized), which is defined as IBIT excluding pre-tax noncontrolling interests, as a percentage of average active equity.

Average Active Equity: We calculate active equity to make comparisons to our competitors easier and we refer to active equity for several ratios. However, active equity is not a measure provided for in IFRS and you should not compare our ratios based on average active equity to other companies' ratios without considering the differences in the calculation. The items for which we adjust the average shareholders' equity are average accumulated other comprehensive income (loss) excluding foreign currency translation (all components net of applicable taxes), as well as average dividends, for which a proposal is accrued on a quarterly basis and which are paid after the approval by the Annual General Meeting following each year. Tax rates applied in the calculation of average active equity are those used in the financial statements for the individual items and not an average overall tax rate. In the first quarter of 2011 the Group changed the methodology used for allocating average active equity to the business segments. Under the new methodology economic capital as basis for allocation is substituted by risk weighted assets and certain regulatory capital deduction items. All other items of the capital allocation framework remain unchanged.

The total amount allocated is determined based on the higher of the Group's overall economic risk exposure or demand for regulatory capital. Starting 2012 the Group derives its internal demand for regulatory capital assuming a Core Tier 1 ratio of 9.0 %, reflecting increased regulatory requirements (previously this was calculated based on a Tier 1 ratio of 10%, however all periods 2011 have been restated to reflect the new methodology). As a result, the amount of capital allocated to the segments has increased. If the Group's average active equity exceeds the higher of the overall economic risk exposure or the regulatory capital demand, this surplus is assigned to Consolidation & Adjustments.

Cost ratios

Cost/income ratio: Noninterest expenses as a percentage of total net revenues, which are defined as net interest income before provision for credit losses plus noninterest income.

Compensation ratio: Compensation and benefits as a percentage of total net revenues, which are defined as net interest income before provision for credit losses plus noninterest income.

Noncompensation ratio: Noncompensation noninterest expenses, which are defined as total noninterest expenses less compensation and benefits, as a percentage of total net revenues, which are defined as net interest income before provision for credit losses plus noninterest income.

Balance sheet leverage ratio

We calculate our leverage ratio as a non-GAAP financial measure by dividing total assets by total equity.

We disclose an adjusted leverage ratio for which the following adjustments are made to the reported IFRS assets and equity:

- Total assets under IFRS are adjusted to reflect netting provisions to obtain total assets adjusted. Under IFRS offsetting of financial assets and financial liabilities is required when an entity, (1) currently has a legally enforceable right to set off the recognised amounts; and (2) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. IFRS specifically focuses on the intention to settle net in the ordinary course of business, irrespective of the rights in default. As most derivative contracts covered by a master netting agreement do not settle net in the ordinary course of business they must be presented gross under IFRS. Repurchase and reverse repurchase agreements are also presented gross, as they also do not settle net in the ordinary course of business, even when covered by a master netting agreement. It has been industry practice in the U.S. to net the receivables and payables on unsettled regular way trades. This is not permitted under IFRS.
- Total equity under IFRS is adjusted to reflect pro-forma fair value gains and losses on our own debt (post-tax estimate assuming that substantially all our own debt was designated at fair value), to obtain total equity adjusted. The tax rate applied for this calculation is a blended uniform tax rate of 35%.

We apply these adjustments in calculating the adjusted leverage ratio to improve comparability with our competitors.

The definition of the adjusted leverage ratio is used consistently throughout our Group in managing the business. There will still be differences in the way our competitors calculate their leverage ratios compared to our definition of the adjusted leverage ratio. Therefore our adjusted leverage ratio should not be compared to other companies' leverage ratios without considering the differences in the calculation. Our adjusted leverage ratio is not likely to be identical to, nor necessarily indicative of, what our leverage ratio would be under any current or future bank regulatory leverage ratio requirement.

Other key ratios

Diluted earnings per share: Net income (loss) attributable to Deutsche Bank shareholders, which is defined as net income (loss) excluding noncontrolling interests, divided by the weighted-average number of diluted shares outstanding. Diluted earnings per share assume the conversion into common shares of outstanding securities or other contracts to issue common stock, such as share options, convertible debt, unvested deferred share awards and forward contracts.

Book value per basic share outstanding: Book value per basic share outstanding is defined as shareholders' equity divided by the number of basic shares outstanding (both at period end).

Tier 1 capital ratio: Tier 1 capital, as a percentage of the risk-weighted assets for credit, market and operational risk.

Core Tier 1 capital ratio: Core Tier 1 capital, as a percentage of the risk-weighted assets for credit, market and operational risk.
