**Overview of transformation**

- Shift from a lending- and revenue- to a product- and profitability-driven sales approach (proportion of lending down from 40% to 24%)
- Focus on client profitability
- Implementation and transition to LEMG lending approach
- Introduction of a coverage model which is oriented to client segment-specific needs
- Streamlined sales and marketing organization
- Consolidation of standardized service activities to regional hubs
- Centralization of middle and back-office functions
Well on our way to achieving the EUR 1bn target

Sustained pre-tax profit growth

Income before income taxes, in EUR m

Tactics

- More organic topline growth – focus on Europe
- Further deepen our footprint and market perception in the Americas
- Continue to grow Asian business
- Build out other emerging markets with focus on Turkey and China
- Bolt-on acquisitions like ABN Amro deal, HedgeWorks and Pago
- More cooperation with Corporate Finance, Global Markets and Private & Business Clients
- Continued disciplined cost management

Cautionary statements

This presentation contains forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about our beliefs and expectations and the assumptions underlying them. These statements are based on plans, estimates and projections as they are currently available to the management of Deutsche Bank. Forward-looking statements therefore speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which we derive a substantial portion of our trading revenues, potential defaults of borrowers or trading counterparties, the implementation of our management agenda, the reliability of our risk management policies, procedures and methods, and other risks referenced in our filings with the U.S. Securities and Exchange Commission. Such factors are described in detail in our SEC Form 20-F of 26 March 2008 under the heading “Risk Factors.” Copies of this document are readily available upon request or can be downloaded from www.deutsche-bank.com/ir.

This presentation may also contain non-IFRS financial measures. For a reconciliation to directly comparable figures reported under IFRS refer to the 2Q2008 Financial Data Supplement, which is accompanying this presentation and available on our Investor Relations website at www.deutsche-bank.com/ir.
