Euro 80,000,000,000
Debt Issuance Programme

This document constitutes a supplement (the “Supplement”) to the base prospectus dated 29 June 2012, as supplemented, (the “Prospectus”) for the purpose of article 13 of Chapter 1 of Part II of the Luxembourg Law dated 10 July 2005 on prospectuses for securities (the “Law”) and is prepared in connection with the EUR 80,000,000,000 Debt Issuance Programme (the “Programme”) established by Deutsche Bank Aktiengesellschaft (the “Issuer”). Terms defined in the Prospectus have the same meaning when used in this Supplement.

This Supplement is supplemental to, and should be read in conjunction with, the Prospectus.

The Issuer accepts responsibility for the information contained in this Supplement. To the best of the knowledge of the Issuer (which has taken all reasonable care to ensure that such is the case) the information contained in this Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information.

This Supplement will be published in electronic form on the website of the Luxembourg Stock Exchange (www.bourse.lu) and on the website of the Issuer (www.db.com/ir).

In accordance with Article 13 paragraph 2 of the Law, investors who have already agreed to purchase or subscribe for the Securities before this Supplement is published have the right, exercisable within a time limit of minimum two working days, which is 7 February 2013, after the publication of this Supplement, to withdraw their acceptances.

The Issuer has requested the Commission de Surveillance du Secteur Financier (the “CSSF”) to provide the competent authorities in Austria, Belgium, Denmark, France, Germany, Ireland, Italy, the Netherlands, Portugal, Spain, Sweden and the United Kingdom of Great Britain and Northern Ireland, with a certificate of approval (a "Notification") attesting that this Supplement has been drawn up in accordance with the Law. The Issuer may request the CSSF to provide competent authorities in additional Member States within the European Economic Area with a Notification.
Amendments – Update of Section “Update of Information contained in the Registration Document – Recent Developments” of the Prospectus

On 31 January 2013, the Issuer reported preliminary unaudited figures for the fourth quarter and the full year 2012 for its consolidated group. Therefore the Prospectus shall be amended as follows:

At the end of the section “UPDATE OF INFORMATION CONTAINED IN THE REGISTRATION DOCUMENT - RECENT DEVELOPMENTS” on page 55 of the Prospectus, the following text shall be added:

On 31 January 2013, Deutsche Bank reported preliminary unaudited figures for 4Q2012 and the full year 2012 and provided a progress update on Strategy 2015+. Deutsche Bank announced that the annual report for 2012 will be published on 21 March 2013.

During 4Q2012, Deutsche Bank proceeded with the implementation of its Strategy 2015+, announced in September 2012. As at 31 December 2012, the Bank’s pro-forma Basel 3 fully-loaded Core Tier 1 ratio was 8.0%, compared to less than 6% at the end of 2011, significantly above the Bank’s communicated target of 7.2% for year-end 2012. This development predominantly reflects strong delivery on portfolio optimization and de-risking of non-core activities, as well as model and process enhancements. The Bank raised its Basel 2.5 Tier 1 capital ratio to 15.3%, its highest level ever, up from 12.9% at the end of 2011.

In the second half of 2012, the Bank achieved a reduction in Basel 3 risk weighted asset equivalents of EUR 80 billion since 30 June 2012, versus our communicated target of EUR 90 billion for 31 March 2013.

As a result, Deutsche Bank raises its target for the Basel 3 fully-loaded Core Tier 1 capital ratio from 8.0% to 8.5% for 31 March 2013.

Group net revenues were EUR 33.7 billion in 2012, up from EUR 33.2 billion in the prior year. Provision for credit losses was EUR 1.7 billion in 2012, down from EUR 1.8 billion in 2011. Full year IBIT for the Group, after adjusting for the impairment of goodwill and other intangible assets and significant litigation related charges, which together amount to EUR 3.5 billion, was EUR 4.9 billion, to which the Core Bank contributed EUR 6.5 billion.

For 4Q2012, IBIT, after adjusting for the aforementioned charges, which together amount to EUR 2.9 billion, was EUR 0.3 billion, to which the Core Bank contributed EUR 1.0 billion.

As anticipated, several decisions taken by the Bank in the context of the mobilization of Strategy 2015+ had a material impact on 4Q2012 financial results. In 4Q2012, the Bank took impairment charges on goodwill and other intangible assets of EUR 1.9 billion, primarily relating to businesses acquired by Corporate Banking & Securities (CB&S) and Asset and Wealth Management (AWM) prior to 2003 and to businesses assigned to the NCOU. The impairment charges reflect the implementation of strategic initiatives, including accelerated de-risking of non-core activities, implementation of OpEx and the introduction of a new divisional structure including the creation of a dedicated NCOU. They also reflect the impact of market conditions on parameters underlying the valuation of these business units. The goodwill and intangibles impairment charges did not impact the Bank’s pro-forma Basel 3 fully-loaded Core Tier 1 ratio.

In 4Q2012, the Bank also took EUR 1.0 billion of significant litigation related charges (significant meaning charges larger than EUR 100 million), reflecting adverse court rulings and developments in regulatory investigations.

Noninterest expenses increased by EUR 3.3 billion to EUR 10.0 billion compared to 4Q2011, significantly impacted by EUR 1.9 billion impairments of goodwill and other intangible assets and EUR 1.0 billion of significant litigation related charges. Noninterest expenses adjusted for these items were EUR 7.1 billion compared to EUR 6.4 billion in 4Q2011. Adjusted noninterest expenses in 4Q2012 included further specific items of EUR 0.9 billion, comprising EUR 0.4 billion of cost-to-achieve (CIA) related to OpEx and the integration of Postbank and other charges related to the turnaround measures in the Bank’s commercial banking activities in the Netherlands and a write-down of IT in AWM. The Bank met the published objectives of OpEx for year-end 2012, achieving savings of EUR 0.4 billion in the second half of 2012.

The Bank reported a loss before income taxes for 4Q2012 of EUR 2.6 billion (4Q2011: loss before income taxes of EUR 0.4 billion) and a net loss of EUR 2.2 billion (4Q2011: net income of EUR 0.2 billion). For the full year 2012, Deutsche Bank’s IBIT was EUR 1.4 billion (2011: EUR 5.4 billion); 2012 net income was EUR 0.7 billion (2011: EUR 4.3 billion).
The management is determined to bring about deep cultural change at Deutsche Bank. Short term measures are an overhaul of the compensation practices and the continued tightening of the control environment. The Bank significantly reduced the bonus pool. Full year variable compensation is down to 9% of revenues – the lowest level for many years. Additionally, the Compensation Panel, chaired by Jürgen Hambrecht, made a series of recommendations which played a part already in the 2012 compensation. The Panel recommended, for example, that the Bank reduces deferrals, thus reducing the compensation cost for future years. It also advised that measures of performance for clients play a greater role in performance management assessments. Longer term measures towards achieving deep cultural change include issues like client integrity, operational discipline and cross-silo cooperation. These areas of focus were identified by conducting the most comprehensive dialogue with employees in recent years.

The Management Board and the Supervisory Board will propose a cash dividend of EUR 0.75 per share for 2012 at the Annual General Meeting on 23 May 2013.

Capital, Liquidity and Funding

The Bank’s Basel 2.5 Core Tier 1 capital was 11.6% at the end of 4Q2012, up from 10.7% at the end of 3Q2012. The increase in our Core Tier 1 capital ratio was largely driven by EUR 32 billion lower RWA as well as reduced securitization capital deduction items both a result of our successful targeted management action and de-risking program.

The Basel 3 pro-forma Core Tier 1 capital ratio of 8.0% as of 31 December 2012 reflects EUR 55 billion of risk mitigation in 4Q2012 including the above mentioned Basel 2.5 effects.

Liquidity reserves were in excess of EUR 230 billion with approximately 50% being in cash and cash equivalents. Starting December 2012 the definition of the group wide liquidity reserves includes reserves held on a Postbank AG level, which contributed in excess of EUR 25 billion at year-end.

Over the course of 4Q2012 we raised a further EUR 1.9 billion of debt funding taking the total term funding to EUR 17.9 billion. The average spread of our issuance over the relevant floating index was 64bps for the full year 2012 with an average tenor of 4.2 years.

In 2013, we have modest refinancing needs of up to EUR 18 billion which we intend to raise through a variety of funding channels including benchmark issuances, private placements as well as retail networks.

Leverage ratio (adjusted) remained materially unchanged at 21 compared to the previous quarter, as a EUR 82 billion reduction in adjusted assets was offset by lower total equity (adjusted).

Segment Results

In 4Q2012, the Bank implemented its new segment structure, which includes the formal establishment of a new business division called Non-Core Operations Unit (NCOU). The NCOU has been created by the reassignment of management responsibilities for non-core operations and the allocation of portfolios and individual assets that qualified under the selection criteria of the NCOU. The new segment structure also led to an integrated Asset & Wealth Management (AWM) division, which now also includes the former Corporate Banking & Securities (CB&S) passive and third-party alternative assets businesses such as exchange traded funds (ETFs). Previously reported financial data has been restated from Dec 2010 onwards in accordance with the new segment structure.
Net revenues increased by EUR 1.0 billion, or 43%, compared to 4Q2011. Net revenues included EUR 516 million related to the impact of a refinement in the calculation methodology of the Debt Valuation Adjustment (DVA) on certain derivative liabilities in 4Q2012. Excluding the impact of DVA, net revenues increased by EUR 517 million, or 22%, compared to 4Q2011. The main driver for the improvement were Origination and Advisory net revenues, which increased by EUR 271 million, or 63%, compared to 4Q2011, mainly due to higher Debt and Equity Origination revenues, reflecting increased corporate debt issuance and ECM activity respectively. Furthermore, Sales & Trading (debt and other products) net revenues increased by EUR 157 million, or 12%, compared to 4Q2011, despite a loss of EUR 186 million in 4Q2012 relating to Credit Valuation Adjustment (CVA) due to the impact of a refinement in the calculation methodology and RWA mitigation. The increase was mainly due to higher flow product revenues in Credit, reflecting improved market conditions.

Noninterest expenses increased by EUR 1.9 billion, or 92%, compared to 4Q2011. The current quarter included EUR 1.2 billion impairment of intangible assets. Excluding the impairment of intangible assets, noninterest expenses increased by EUR 708 million, driven by higher litigation related charges, CTA related to OpEx in 4Q2012, and higher performance related compensation due to a higher deferral rate in 2011. In addition, adverse foreign exchange rate movements contributed to the increase in expenses compared to 2011. Increases were partly offset by lower non-performance compensation related costs reflecting the implementation of OpEx.

Compared to 3Q2012 noninterest expenses increased by EUR 1.1 billion, also primarily driven by the aforementioned impairment of intangible assets and litigation related charges. Excluding this impairment, noninterest expenses decreased by EUR 117 million, or 4% compared to 3Q2012, driven by lower CTA related to OpEx, and efficiency savings including lower compensation expenses reflecting the implementation of OpEx.

Income before income taxes decreased by EUR 858 million compared to 4Q2011, mainly reflecting the aforementioned impairment of intangible assets, litigation related charges and CTA relating to OpEx, partly offset by increased revenues.

Global Transaction Banking (GTB)

Global Transaction Banking (GTB)
Net revenues in 4Q2012 increased by EUR 137 million, or 15%, compared to 4Q2011. Revenues in the current quarter included a positive effect related to the aforementioned settlement. Outside the Netherlands, GTB’s revenue performance was resilient, benefitting from strong volumes while interest rate levels continued to be low.

Provision for credit losses decreased by EUR 11 million, or 18%, compared to 4Q2011, mainly reflecting lower provisions in the Trade Finance business. Compared to 3Q2012 provision for credit losses increased by EUR 18 million, or 53%, driven by the commercial banking activities acquired in the Netherlands as well as higher provisions in the Trade Finance business.

Noninterest expenses increased by EUR 668 million, or 111%, in 4Q2012 compared to 4Q2011 driven by charges related to the aforementioned turnaround, including the settlement, as well as a litigation related charge. Compared to 3Q2012 noninterest expenses increased by EUR 628 million also driven by the aforementioned charges, which were partly offset by lower compensation-related expenses.

Loss before income taxes of EUR 259 million in 4Q2012 was resulting from the turnaround measures as well as a litigation related charge. Excluding the net charge mentioned above, income before income taxes for the reporting period was above 3Q2012.

Fourth quarter 2012

Net revenues decreased by EUR 72 million, or 6%, compared to 4Q2011. The decrease was mainly driven by EUR 65 million effects from mark-to-market movements on investments held to back insurance policyholder claims in Abbey Life, which are offset in noninterest expenses, EUR 52 million in RREEF driven by performance related one-off effects in 2011 as well as lower revenues of EUR 34 million in Alternative Fund Solutions due to reduced demand for hedge fund products. Partly offsetting were higher revenues from advisory/brokerage of EUR 58 million mainly due to WM Asia/Pacific and WM Americas.

Noninterest expenses increased by EUR 403 million, or 42%, compared to 4Q2011, mainly driven by Scudder related impairments of EUR 202 million, IT-related impairments of EUR 90 million as well as litigation related charges, partly offset by the aforementioned effects related to Abbey Life. Compared to 3Q2012, noninterest expenses increased by EUR 249 million, or 23%, mainly driven by the aforementioned effects, partly offset by lower reorganization related spend and lower compensation costs reflecting the implementation of OpEx.

The loss before income taxes of EUR 260 million in 4Q2012 was primarily driven by the impairments mentioned above.
Private & Business Clients (PBC)

Fourth quarter 2012

Net revenues were down EUR 175 million, or 7%, compared to 4Q2011 primarily attributable to Consumer Banking Germany with a decrease of EUR 209 million, or 18%, driven by lower contribution from purchase price allocation effects and a lower impact from releases from loan loss allowance recorded prior to consolidation. The decline in revenues also reflected a low interest environment. Advisory Banking revenues from Deposits and Payment Services were down EUR 23 million, or 4%, compared to 4Q2011, mainly driven by lower margins. Credit Product revenues increased due to higher margins in Advisory Banking International by EUR 10 million, or 2%. Advisory/brokerage revenues were up by EUR 33 million, or 17%, primarily in brokerage in Advisory Banking Germany.

Provision for credit losses decreased by EUR 67 million, or 24%, compared to 4Q2011 mainly related to Postbank. This excludes releases from Postbank related loan loss allowance recorded prior to consolidation of EUR 16 million. The impact of such releases is reported as net interest income. Compared to 3Q2012 provision for credit losses were higher by EUR 27 million, or 15%, driven by Postbank.

Noninterest expenses decreased slightly by EUR 31 million, or 2%, compared to 4Q2011. Compared to 3Q2012 noninterest expenses were up by EUR 64 million, or 3%, driven by higher costs-to-achieve related to Postbank integration and to OpEx.

Income before income taxes decreased by EUR 38 million, or 12%, compared to 4Q2011. Advisory Banking Germany decreased by EUR 85 million, mainly driven by higher costs related to Postbank integration, and Consumer Banking Germany decreased by EUR 45 million, driven by lower revenues. Advisory Banking International improved by EUR 92 million, driven by a higher equity pick-up related to our stake in Hua Xia Bank and higher credit product margins in Europe.

Non-Core Operations Unit (NCOU)

Fourth quarter 2012

The performance of NCOU in each period is mainly driven by the timing and nature of specific items. In 4Q2012 such specific items included negative effects related to refinements to the CVA model, losses from sales of capital intensive securitization positions and various impairments. Partially offsetting was a gain from the sale of our EADS stake. 4Q2011 included a one-off impairment charge of EUR 407 million related to Actavis.

Provision for credit losses in the 4Q2012 decreased by EUR 31 million, or 23%, versus 4Q2011 and by EUR 196 million, or 65% versus 3Q2012. This decrease is mainly due to lower provisions in relation to IAS 39 reclassified assets.
Noninterest expenses were down by EUR 56 million, or 5%, compared to 4Q2011. Although 4Q2012 included EUR 400 million impairment of intangible assets, 4Q2011 was impacted by a EUR 135 million property related impairment charge, EUR 97 million related to BHF Bank and additional settlement costs.

Fourth quarter 2012

Loss before income taxes of EUR 697 million in 4Q2012 mainly included litigation related charges. It also reflects charges of EUR 133 million for UK and German bank levies. In addition, timing differences from different accounting methods used for management reporting and IFRS amounted to approximately negative EUR 60 million, mainly related to interest rate changes affecting economically hedged positions and to the reversal of prior period interest rate effects.
