Forward-looking statements contain risks

This report contains forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about our beliefs and expectations. Any statement in this report that states our intentions, beliefs, expectations or predictions (and the assumptions underlying them) is a forward-looking statement. These statements are based on plans, estimates and projections as they are currently available to the management of Deutsche Bank. Forward-looking statements therefore speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which we derive a substantial portion of our trading revenues, potential defaults of borrowers or trading counterparties, the implementation of our strategic initiatives, the reliability of our risk management policies, procedures and methods, and other risks referenced in our filings with the U.S. Securities and Exchange Commission. Such factors are described in detail in our 2013 Annual Report on Form 20-F, which was filed with the SEC on March 20, 2014, on pages 11 through 25 under the heading “Risk Factors.” Copies of this document are readily available upon request or can be downloaded from www.deutsche-bank.com/ir.

This document and other documents we have published or may publish contain non-GAAP financial measures. Non-GAAP financial measures are measures of our historical or future performance, financial position or cash flows that contain adjustments which exclude or include amounts that are included or excluded, as the case may be, from the most directly comparable measure calculated and presented in accordance with IFRS in our financial statements. Examples of our non-GAAP financial measures, and the most directly comparable IFRS financial measures, are as follows:

For such descriptions with respect to earlier period data, please refer to pages 4 and 5 of our 2013 Annual Report on Form 20-F, which also describe where in the 2013 Annual Report on Form 20-F such non-GAAP financial measures are reconciled to the most directly comparable financial measures under IFRS. For descriptions of certain non-GAAP financial measures contained in this document and the adjustments made to the most directly comparable IFRS financial measures to obtain them, please refer to Exhibit 99.2 hereof. Ad hoc: Deutsche Bank AG (english)

Deutsche Bank raises capital and reaffirms Strategy 2015+

Frankfurt am Main, 18 Mai 2014 – Deutsche Bank (XETRA: DBKGn.DE / NYSE: DB) today announced a capital increase with proceeds expected to be approximately EUR 8 billion. The capital increase will include an ex-rights issue of EUR 1.75 billion which has already been placed with an anchor investor and a fully underwritten rights issue. The rights issue is expected to raise EUR 6.3 billion of new equity.

Additionally, Deutsche Bank today reaffirmed its commitment to Strategy 2015+ and is providing updated financial aspirations and further details of an accelerated growth strategy.

Strengthening capital

The capital measures will increase the Common Equity Tier 1 (CET1) ratio by approximately 230 basis points from 9.5% at the end of the first quarter 2014 to 11.8% on a pro forma CRD4 fully-loaded basis. This increase follows significant strengthening of this ratio, which stood below 6% in mid 2012, under Strategy 2015+. These measures will substantially increase the Bank's capital ratio, provide a buffer for future regulatory requirements, and support targeted business growth.

Deutsche Bank placed approximately 60 million shares at a price of EUR 29.20 per share with Paramount Holdings Services Ltd., an investment vehicle owned and controlled by His Excellency Sheikh Hamad Bin Jassim Bin Jabor Al-Thani of Qatar, who intends to remain an anchor investor in Deutsche Bank.

Additionally, through the rights issue, Deutsche Bank expects to issue up to 300 million new shares. The rights offering will be led by Deutsche Bank as global coordinator and bookrunner. A syndicate of banks have agreed to a firm underwriting of the new shares.

Subject to the approval by the BaFin, a securities prospectus is expected to be published on 5 June 2014. The subscription period is expected to run through 24 June 2014.

Strategy 2015+ updated targets

The Bank reaffirmed its commitment to implementing Strategy 2015+, which has so far generated more than 350 basis points of CET1 capital ratio increase on a pro forma CRD4 fully-loaded basis, some EUR 360 billion of CRD4 exposure reductions, and EUR 2.3 billion of cumulative cost savings from the Bank's Operational Excellence Programme (OpEx) in less than two years.

The package of measures announced today reinforces Strategy 2015+ by enabling Deutsche Bank to address challenging operating conditions. These include tighter regulatory requirements, the increased cost of compliance and litigation, and headwinds in the macro-economic environment. These measures also enable the Bank to invest in growth opportunities in its core businesses arising from improved dynamics in the competitive environment.

As a result, the Bank is updating its targets as follows:

- Accelerated delivery of target CET1 ratio, to exceed 10% on a pro forma CRD4 fully loaded basis
- Introduction of a leverage ratio target of approximately 3.5% by end of 2015 on a pro forma CDR4 fully-loaded basis
- Reaffirmation of the cumulative OpEx savings target of EUR 4.5 billion by end of 2015
- Updated Group post-tax return on equity (RoE) targets:
 - approximately 12% in 2015 adjusted for significant non-operating items
 - approximately 12% in 2016 on a reported basis
- Updated Cost Income Ratio targets:
 - approximately 65% in 2015 adjusted for significant non-operating items
 - approximately 65% in 2016 on a reported basis
- Deutsche Bank aspires to return surplus capital to shareholders – including in the form of competitive dividend payout ratios – in the long-term.

Core business targets for 2015 have been updated as follows:

- Corporate Banking & Securities (CB&S): adjusted post-tax RoE of 13%-15%
- Private & Business Clients (PBC): reported income before income taxes (IBIT) of EUR 2.5-3.0 billion
- Global Transaction Banking (GTB): reported IBIT of EUR 1.6-1.8 billion
- Deutsche Asset & Wealth Management (DeAWM): reported IBIT of approximately EUR 1.7 billion, unchanged from the previous target
