Dr. Sabine Miltner
Group Sustainability Officer
Dr. Julia Dieckmann
Senior Investor Relations Manager

Passion to Perform

Boston and New York, 26-27 June 2012

1 Financial overview and sustainability approach

2 Economics and Corporate Governance

3 Environment

4 Society

Overview

		1Q2012	1Q2011
Profitability	Income before income taxes (in EUR bn)	1.9	3.0
	Net income (in EUR bn)	1.4	2.1
	Pre-tax RoE (target definition) ⁽¹⁾	14%	22%
	Diluted EPS (in EUR)	1.44	2.13
		31 Mar 2012	31 Dec 2011
Capital	Core Tier 1 capital ratio	10.0%	9.5%
	Tier 1 capital ratio	13.4%	12.9%
	Core Tier 1 capital (in EUR bn)	37.0	36.3
Balance Sheet	Total assets (adjusted, in EUR bn) ⁽²⁾	1,256	1,267
	Leverage ratio (target definition) ⁽³⁾	21	21
	Liquidity reserves (in EUR bn) ⁽⁴⁾	>195	219

(1) Based on average active equity

(2) Adjusted for netting of derivatives and certain other components (Total assets according to IFRS were EUR 2,103 bn as of 31 Mar 2012 and EUR 2,164 bn as of 31 Dec 2011)

(3) Total assets (adjusted) divided by total equity (adjusted) per target definition

(4) The bank's liquidity reserves include (a) available excess cash held primarily at central banks, (b) unencumbered central bank eligible business inventory, as well as (c) the strategic liquidity reserve of highly liquid government securities and other central bank eligible assets. Excludes any positions held by Postbank.

Deutsche Bank's sustainability approach

Key sustainability accomplishments in 2011

E

- Expansion of Deutsche Bank's risk management framework
- Development & implementation of Cluster Munitions Policy
- Sustainable funds and thematic funds of DWS Investments and DB Advisors with a total of EUR 2.5 bn (end of 2011)
- New transparency on management board compensation
- Review of risk taker identification process led to the inclusion of substantially more employees being captured under the regulations (was 168 in 2010, now is 1,363 for 2011)

S

- Fostering of gender diversity by grooming female candidates for executive positions within the bank
 - Deutsche Bank Group committed itself to increase the worldwide proportion of its female senior executives at the Managing Director and Director levels to 25 percent by the end of 2018 (DAX 30 self-commitment)
 - “Accomplished Top Leaders Advancement Strategy” (“ATLAS”)
- Strategic review of the stakeholder dialogue approach and strengthened engagement with e.g. investors, employees and NGOs

E

- Successful recertification of our sustainability management system within the ISO 14001 standard
- Reduction of Deutsche Bank's carbon net emissions by 80 % compared to the 2007 baseline figures (renewable offsets included)
- GET FiT: renewable scale-up in developing countries

Governance of Deutsche Bank's sustainability management

Certified under ISO 14001

Agenda

1 Financial overview and sustainability approach

2 Economics and Corporate Governance

3 Environment

4 Society

Compensation update

Regulations

- German Institutsvergütungsverordnung (InstVV) remained unchanged
- Sound review of regulations applicable for our US operations was performed
- Concerns re uneven level playing field to overseas regulations still remain valid but also inconsistencies within Europe have been observed

Alignment of compensation structures

- During 2011 DB further has aligned compensation structures with the regulations, where necessary
- Sound review of risk taker identification process ('InstVV regulated employees') led to the inclusion of substantially more employees being captured under the regulations (was 168 in 2010, now is 1,363 for 2011)
- For regulated staff, deferral percentages (starting at 40% minimum) have been increased, even more performance-based clawbacks have been tightened to better align with profitability and risk of the firm and the divisions
- For non-regulated staff, the deferred compensation structures have remained broadly the same, but a performance-based clawback has been added

February 2012 awards

- Total deferrals in Feb 2012 at EUR 2.2 bn, vesting over 3 years equalling the amount in Feb 2011
- Deferred equity / cash split remained unchanged at 50/50

Compensation management

Reduction of compensation ratio

Compensation expenses / net revenues

- (1) Excludes amortization of prior year deferrals, includes current year awards vesting in the future
- (2) Excludes Postbank-related charge of EUR 2.3 bn
- (3) Deferral ratio was increased to 61% (EUR 2.2 bn) for 2011 from 49% for 2010, due to changes in the cash / deferral split
- (4) In EUR bn; 2010 excludes Postbank-related charge of EUR 2.3 bn

Variable pay down / revenues up

Incentive awards (variable remuneration)⁽¹⁾

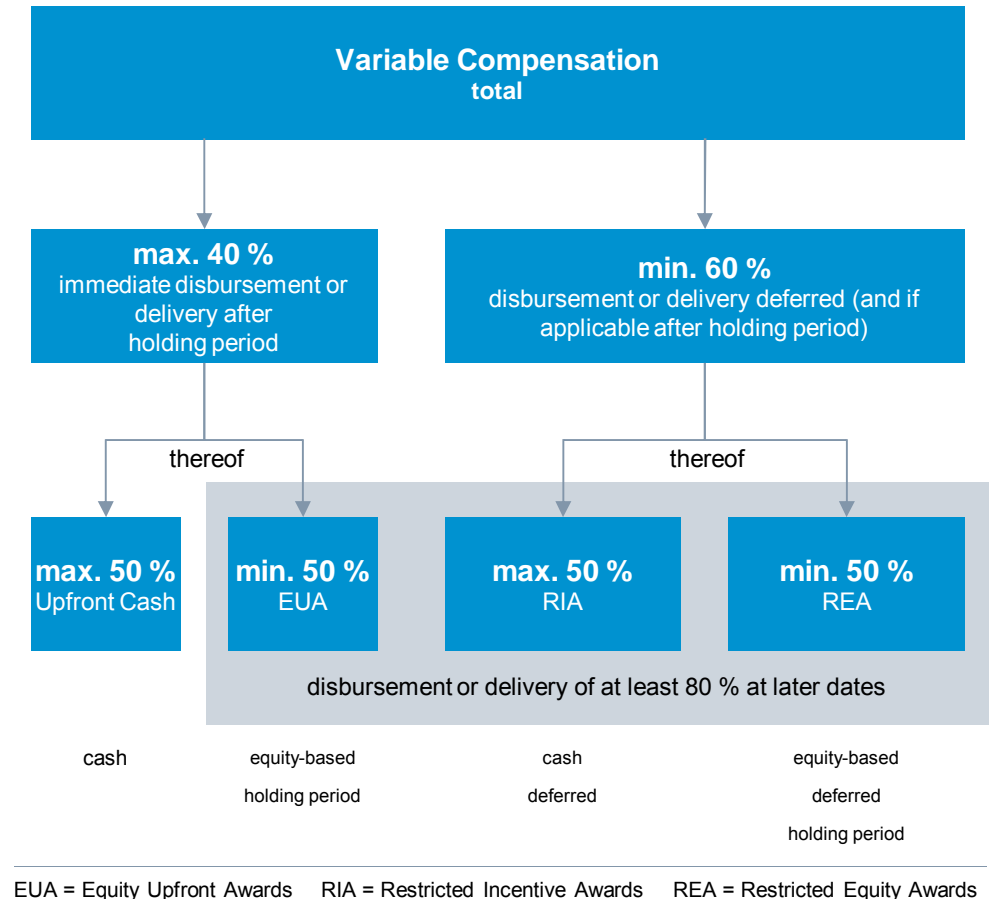

Management Board: Compensation structure (1/2)

- The compensation system takes all applicable statutory and regulatory requirements into account and focuses on ensuring a close link between the interests of the Management Board members and the interests of the shareholders
- The compensation is divided into both non-performance-related components (= base salary and other benefits) and performance-related components (= Bonus, Long-Term Performance Award (LTPA) and – if applicable – Division Incentive)
- The Bonus depends on the development of the Return on Equity, the LTPA depends on the Relative Total Shareholder Return and the Division Incentive depends on various aspect (eg. CIB results, individual contributions, etc.)
- The total amount from the variable compensation is mostly granted on a deferred basis (at least 60%) or spread out over several years
- At least half of the entire variable compensation is granted as equity-based compensation and therefore directly linked to the performance of the Deutsche Bank share
- Only a maximum of 20% of the variable compensation is paid out in cash immediately (in 2012: about 4%)

Split / structure of variable compensation

Management Board: Compensation structure (2/2)

All compensation components which are granted deferred or spread out over several years are subject to certain forfeiture condition and make an essential contribution to the long-term nature of the compensation

Timeframe for disbursement or delivery and non-forfeiture

■ Disbursement or delivery (vesting of RIAs at the same time)

■ Vesting followed by a holding period until disbursement or delivery; subject to individual forfeiture conditions during the holding period

The key functions of Deutsche Bank's compliance processes

~ 530 Compliance staff worldwide⁽¹⁾

- Providing advisory support to business on applicable laws, rules and regulations
- Codifying and communicating global and local compliance principles, standards and procedures
- Conducting surveillance and monitoring of compliance standards
- Supporting Deutsche Bank's information barriers through control room functions
- Providing periodic training to employees regarding applicable laws, rules and regulations
- Anti-money laundering program: Protecting the bank against money laundering, terrorism and other financial crimes

High level of compliance education⁽²⁾

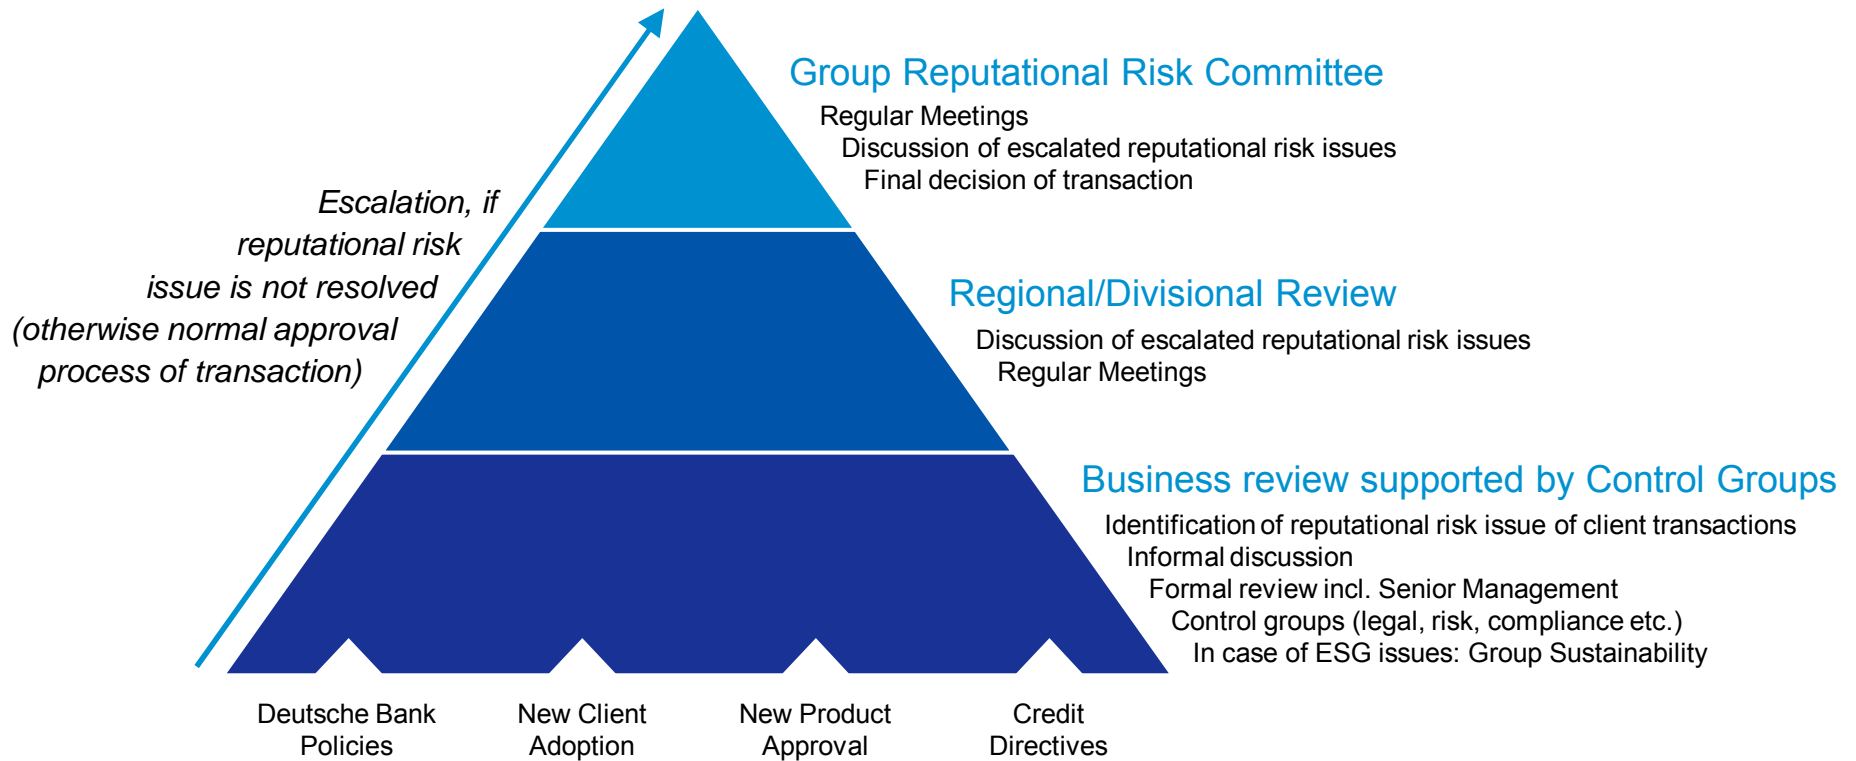

(1) Combined staff of the Compliance department and related functions to which services were relocated

(2) Number of compliance training classes attended by Deutsche Bank employees.

Decrease in 2010 due to periodicity of trainings. Increase in 2011 due to new risk cultural trainings (trainings: "Security awareness" and "Information classification")

Risk escalation process

Environmental and Social Risk Framework: Overview

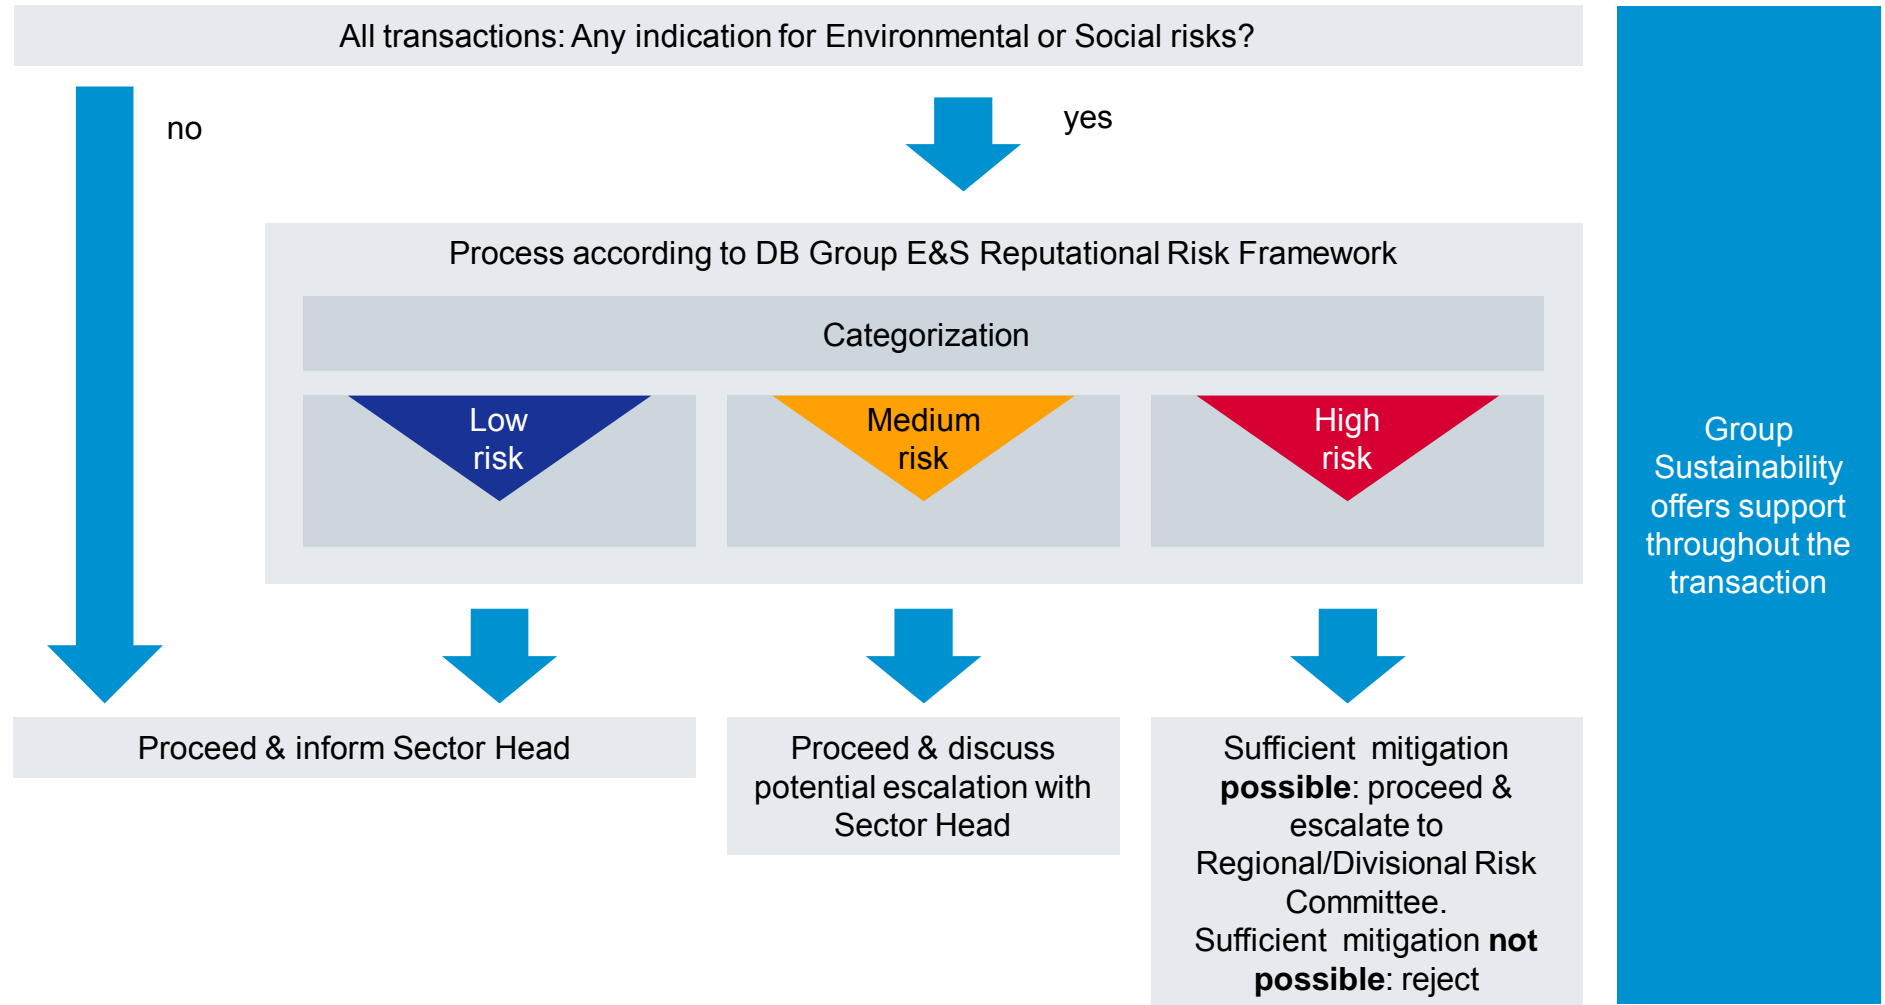

- The Framework, **approved** by the Group Reputational Risk Committee (GRRC) mid 2011, **operationalizes** the Reputational Risk Management Program Policy.
- The Framework includes a **Guidance Note** which further assists in identifying reputational risks that require mitigation.
- Reputational risks can be inherent in **all types of transactions and sectors**
- Primary responsibility to identify risks rests with business
- The following **sectors** are covered by the Guidance Note:

- Agriculture & forestry
- Chemicals
- Defense equipment
- Infrastructure
- Metals & Mining
- Oil & Gas
- Utilities
- Other activities with high carbon intensity

- **Training** provided globally to key multipliers such as the Rep Risk Committee Members, Chief Country Officers, Legal & Compliance Heads, Natural Resources Group etc

Environmental and Social Risk Framework: Process

Credit Directives – core principles for our banking business

Defense equipment

“We will not consider any involvement in transactions connected with specific types of weapons, in particular antipersonnel landmines, cluster bombs or ABC weapons.”...

Pornography/“Red Light Area”

“Deutsche Bank will not enter into business relationships with counterparts belonging or being close to the pornographic sector or adjacent areas (red light area).”...

Betting & gambling industry

“We specifically do not want to be connected to counterparties within this industry which show signs of proximity to problematic areas (e.g. red light sphere) or which are prone to serve as basis for illegal activities, as for example the handling of cash entails the possibility of money laundering.”...

Environmental issues

“Deutsche Bank regards the responsible treatment of the environment as an integral part of its corporate identity. [...] In addition to complying with the legal provisions relating to environmental protection, we undertake to protect natural resources such as air, water, and soil. [...] We will not finance certain globally banned products, e.g. CFC, asbestos.”...

Embargos & related restrictions

“All European embargoes apply to the entire Deutsche Bank Group. In addition, local regulations that go beyond the restrictions introduced by the EC have to be followed by those directly affected thereby.”....

Environmental and Social Risk Framework: Facts & Figures

of transactions escalated

		2009		2010		2011
to regional / divisional committees	85	100%	93	100%	96	100%
— thereof with environmental and social issues ⁽¹⁾	9	11%	11	12%	9	9%
to Group Reputational Risk Committee	4	4.7%	5	5.4%	3	3.1%
— thereof with environmental and social issues ⁽¹⁾	1	1%	0	0%	0	0%
Total	89	100%	98	100%	99	100%
— thereof with environmental and social issues ⁽¹⁾	10	11%	11	11%	9	9%

(1) Based on escalation driver "environmental" and "social responsibility" as reported to GRRC

Stakeholder dialogue on key challenges 2011 and 2012

Cluster munitions

“We will not do business with companies which produce the bombs. We will not do business with companies which produce key components. Nor will we do business with groups where the contribution of cluster munitions to the group is anything other than *de minimis*.”

Andrew Procter, Global Head of Government and Regulatory Affairs, Deutsche Bank AG

- Proactive stakeholder dialogue with NGOs and other financial institutions
- Result: Development and implementation of a policy to stop business relations in this area in 2H 2011

Agribusiness

„We agree with international policy makers that transparency in agricultural commodity derivatives market should be enhanced, measures to avoid misconducts should be strengthened and we have taken appropriate measures.”

Dr. Josef Ackermann, CEO of Deutsche Bank AG, 2012

- Proactive stakeholder dialogue with NGOs, other financial institutions, policy makers and industry associations
- Result: In 2012 Deutsche Bank will refrain from launching staple-based public exchange traded products

Cluster Munitions Policy established in 2011

- Guidance on the practical implementation of Board decision to exit relationships and not to engage in new business with cluster munitions manufacturers, distributors and companies that produce key components of cluster munitions
- Business relations with conglomerates that among other products also manufacture cluster munitions or key components of cluster munitions are covered
- New business only when client makes a firm commitment to exit this line of business as soon as possible
- Oslo Convention on Cluster Munitions followed
- Consultation of 3 external research providers (Ethix SRI Research, sustainalytics, Oekom Research AG)
- Monitoring implemented in internal systems

Sustainability at Corporate & Investment Bank (1/2)

Renewable energy market

- Deutsche Bank considers the renewable energy market as having considerable business potential
- Prospects are positive despite setbacks and uncertainty

Project financing

- Deutsche Bank's project finance team has been at the forefront of the Group's involvement in renewable energy since 1999
- 2011 assisting clients on the development and financing of renewable energy projects with installed capacity with ~ 3GW

Carbon markets

- At the end of 2011, Deutsche was involved in more than 85 Clean Development Mechanism and Joint Implementation projects, which are expected to generate and estimated 215 millions emissions credits by 2015

Environmental Finance | Carbon Finance

- Best renewable Energy Finance House – Europe by Environmental Finance and Carbon Finance magazine

- European Emissions House of the Year

Sustainability at Corporate & Investment Bank (2/2)

Selected renewable and cleantech deals and transactions

Renewable energy and clean technology transactions

Corporate & Investment Bank

(Volume in EUR m)	2009	2010	2011
Public Merger & Acquisition transactions ⁽¹⁾⁽²⁾	446	225	5,435
Equity and debt issuances	3,195	1,393	2,290
Project Finance ⁽¹⁾⁽³⁾	219	1,388	2,117

Selected renewable energy and clean technology deals

Merger & Acquisition (Volume in EUR m)

Sale of 60% of Sunpower to Total, USD 1,300 m

Sale of Landis + Gyr to Toshiba, USD 2,300 m

(1) Excluding undisclosed transactions

(2) Significant rise in M&A transactions between 2009 and 2011 due to different numbers of confidential deals in these years.

(3) Significant rise in Project Finance deals due to increased sector activity, utility scale projects, and strong legislative support in different European countries.

Sustainability at Private & Business Clients (1/2)

Sustainability products & barrier-free branches and ATMs

Sustainable & “green” products

Private & Business Clients

Volume in EUR m	2009	2010	2011
Loans			
KfW loans granted to PBC clients in Germany	1,214	1,578	1,168
KfW green loans granted to private clients in Germany	474	630	585
Green loans granted to PBC clients in Germany	n/a ⁽¹⁾	80	132
Investment products			
Volumes in sustainable investment in PBC accounts in Germany	n/a ⁽¹⁾	n/a ⁽¹⁾	353
Volumes in sustainable investment funds in PBC accounts in Europe (excluding Germany)	n/a ⁽¹⁾	n/a ⁽¹⁾	144

- Student loan product
 - helps people to finance their university education and makes higher education more accessible to young people
 - An achievement bonus rewards good graduation results and reduces the applicable effective interest rate
- In 2011 Deutsche Bank had 491 barrier-free branches and ATMs as well as 4,020 ATMs and banking terminals with Braille

(1) Product has been introduced after this date

Sustainability at Private and Business Clients (2/2)

Customer loyalty & client protection

Client loyalty

Private & Business Clients

PBC Client Loyalty Index (TRI*M value^{1,2})

¹ Source: Private & Business Clients, Client Survey, TNS Infratest Financial Research Institute

² TRI*M (Measure, Manage, Monitor) is the globally leading system for stakeholder management and client loyalty. It is tailored to the individual needs of companies in order to incorporate information from all stakeholder groups into the decision-making process

- Award for best advisory service in branches
- Award for “Best investment consulting” by Euro Am Sonntag (on Sunday)

Client protection

Responsible Banking Codex for retail banking products

- Measures to continuously works on building customers’ trust include new advisory processes as well as increased transparency and disclosure in product descriptions
- Deutsche is introducing a Responsible Banking Codex for its products
- Implementation of the Codex will be supervised on a continuous basis by a senior management panel
- Appointment of a Chief Client Officer in 2010, with the responsibility of being a visible partner for our clients and protecting their long-term interests

Sustainability at Asset Management

- Globally more than 20 people in various teams, asset classes and research roles involved in sustainability products
- Policies/Collaborations/Initiatives
 - Signatory of the UN Principles of Responsible Investing (UN PRI) since 2008
 - DWS/DeAM ESG Directive for Portfolio Management, DWS/DeAM proxy voting policy contains various ESG aspects
- Research
 - DB Climate Change Advisor Research Think Tank
 - ESG ratings embedded in DB Advisors/DWS proprietary research platform (“G-Cube”)

Sustainability and climate change funds

Deutsche Asset Management

In EUR bn	2009	2010	2011
Total Assets under Management (AuM)	495,811	549,872	543,973
Total AuM sustainability and climate-change-related funds	3,123	2,877	2,524
of which:			
— funds with a comprehensive ESG orientation	0,623	0,911	1,099
— funds with a “green” or climate change thematic focus	2,262	1,820	1,014
— funds with a focus on ethical themes	0,239	0,145	0,411

Agenda

1 Financial overview and sustainability approach

2 Economics and Corporate Governance

3 **Environment**

4 Society

Deutsche Bank's climate strategy

Carbon neutral from 2013 onwards

Business in clean and green energy

National and international policy dialogue

Areas of focus of the Environmental Steering Committee & the Climate Change Advisory Board

Environmental Steering Committee

Coordination of bank wide business and strategy approaches

DB involvement in policy related activities

- Efforts to improve the EU Emissions Trading Scheme
- Durban climate change conference and creation of the Green Climate Fund
- Rio+20 Sustainable Development conference

External initiatives

- Participation in Global Leadership Technology Exchange, UN Sustainable Energy for All, UN Global Compact, World Business Council for Sustainable Development, requests for conference sponsorship (majority turned down)

Climate Change Advisory Board

May 2011

- Future of nuclear energy
- Business implications of the new 5-year plan in China
- Water challenges and opportunities
- Revisiting shale gas – risks and opportunities

October 2011

- Macro-economic developments and implications for the energy sector
- Tapping different sources of capital to finance energy and climate related investments
- Changing dynamics between East and West in the energy area
- Trends in China and India
- The 'Super' EU electricity grid

May 2012 (forthcoming)

- Sustainable/long-term capitalism
- Energy efficiency and Germany's energy transition
- Developments in China, with a comparison to India and Latin America
- Agriculture

Strategic initiative GET FiT

Facilitate private sector investments in renewable energy in developing countries

From research to realization

- Concept presented for the first time in spring 2010
- Strong interest from public sector stakeholders and influence on international climate change negotiations
- Pilot country chosen in autumn 2011 with donor commitment processes currently ongoing

Energy as driver of development

- Deutsche Bank as **concept inventor**, **climate ambassador** as well as credible and well-respected **sparring partner** to the UN AGECC and the public sector in general
- **Long-term commitment** demonstrated during realization phase – Deutsche Bank and KfW experts joined forces to address global challenge of poverty and climate change

Agenda

■ Other school degrees
■ High school certificate
■ University degree

Deutsche Bank as an employer (3/3)

Training expenses

In EUR m

Apprentices in Germany

In thousands

Employees leaving the bank for a new job

In %

Note: Without Deutsche Postbank

Employee commitment

Commitment is the overall bond between employees and the organisation they work in. In detail, commitment comprises three main elements: the emotional attachment to the Bank (**identification**), the willingness to go the 'extra mile' for the Bank (**engagement**) and the expectation to stay with the Bank (**retention**).

Note: In 2011 DB moved away from analyzing index scores towards analyzing % agreement scores

Diversity at Deutsche Bank

Target: Increase percentage of women in management positions

- Deutsche Bank Group committed itself to increase the worldwide proportion of its female senior executives at the Managing Director and Director levels to 25 percent by the end of 2018 and the proportion of female officers to 35 percent by the end of 2018 (DAX 30 self-commitment)
- 2011: Deutsche Bank met the 2011 senior executive target of 17 percent and outperformed the officer target of 29.3 percent, reaching 29.7 percent.

Accomplished Top Leaders Advancement Strategy (ATLAS)

Programme, established in 2009, to select women every year from all business units and regions to groom suitable candidates for the bank's top management.

Regional diversity

Reach and local presence in over 70 countries and with staff from more than 135 nations

(1) 2010 excluding Deutsche Postbank

Total percentage of women, in %

Percentage of women in management positions, in % (Managing Director, Director)

Deutsche among top 10% in sustainability ratings

Compensation Governance structure enhancements

DB has further enhanced its existing Global Reward Governance Structure to ensure even better oversight and control for all compensation structures and practices on a group-wide basis. Core processes have been strengthened to align with the new European (CRD and CEBS) and German regulations (Institutsvergütungsverordnung – InstVV -) and one committee, the IRCC, has been added to enable DB to run a consistent approach on this specific clawback which is now applicable to all employees with Deferred Awards (see next slide re applicable clawbacks)

Our commitment to international standards is an integral part of our internal policy framework

Carbon neutrality achievements

- Incentivised greater than expected energy savings, helping to reduce the cost of the carbon neutral commitment.
- EUR 16.9 million in energy cost savings between 2008 and end of 2012. Savings are ongoing and represent a 20% return on investment
- Created an essential building block for our climate change related businesses
- Matches similar commitments by clients and peers – 59% of top 500 companies have an emission reduction target (including 71% in the financial sector), up from 41% in 2008.
- Enhanced our expertise leading to a new source of business:
 - two high-profile externally mandated funds
 - a potential mandate from China's Ministry of Finance
 - positioning for emerging multi-billion Euro energy efficiency markets in California, the UK, and Germany

Greentowers – benchmark for future projects

In the course of Europe's most comprehensive reconstruction project, Deutsche Bank's towers in Frankfurt, Germany, are one of the most environmentally friendly high-rise buildings in the world.

Human and labor rights

Human rights

- International guidelines (e.g. the World Bank Standards, the OECD Principles for Multinational Enterprises, the UN Global Compact Principles) are applied in our business
- Deutsche Bank's Code of Conduct requires to maintain equal opportunities by not discriminating based on age, disability, ethnic background, skin color, gender, pregnancy, sexual orientation and identity, nationality, religion, civil status, or any other characteristic
- In 2010 we started a human rights program to further raise consciousness
- Deutsche Bank joined a combined initiative with other banks such as UBS, CS, Barclays etc to develop a guidance for the implementation of Ruggie's "Protect, Respect and Remedy" Framework for Business and Human Rights" (The Thun Group)

Labor rights

- Close and trusting collaboration with labor representatives is maintained
- International Labor Organization's (ILO) standards are strictly followed
- Deutsche Bank's Vendor's Code of Conduct includes the recognition of equal opportunities and the right to collective bargaining and adequate minimum wage and benefits – in case of violation, we end the business relationship

(1) Due to increased support for Education & Science and outstanding commitment to disaster relief efforts

Cautionary statements

This presentation contains forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about our beliefs and expectations and the assumptions underlying them. These statements are based on plans, estimates and projections as they are currently available to the management of Deutsche Bank. Forward-looking statements therefore speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which we derive a substantial portion of our revenues and in which we hold a substantial portion of our assets, the development of asset prices and market volatility, potential defaults of borrowers or trading counterparties, the implementation of our strategic initiatives, the reliability of our risk management policies, procedures and methods, and other risks referenced in our filings with the U.S. Securities and Exchange Commission. Such factors are described in detail in our SEC Form 20-F of 20 March 2012 under the heading “Risk Factors.” Copies of this document are readily available upon request or can be downloaded from www.deutsche-bank.com/ir.

This presentation also contains non-IFRS financial measures. For a reconciliation to directly comparable figures reported under IFRS, to the extent such reconciliation is not provided in this presentation, refer to the 1Q2012 Financial Data Supplement, which is accompanying this presentation and available at www.deutsche-bank.com/ir.
