Passion to Perform

Key take-aways

- Solid Group profitability despite deteriorating market conditions, charges relating to Greek bond holdings and other specific items
- CB&S remained profitable despite substantial market volatility and client risk aversion
- GTB results reflect strong performance across all major products with record quarter in Trade Finance
- PCAM delivered y-o-y profit growth in every segment; integration of Postbank and Sal Oppenheim remains well on track
- Core Tier 1 capital ratio remained solid and will be managed in best interest of shareholders to comply with tightening regulatory regime
- Strong funding and liquidity position with record EUR 180 bn of liquidity reserves and continued premier access to stable funding sources

Well positioned to overcome near-term challenges through combination of world-class investment banking, European leadership in retail asset management and strong retail distribution capacities

- Results reflect exceptionally tough markets due to sovereign debt crisis leading to significant and unabated slowdown in client activity
- Costs negatively impacted by a charge relating to the impairment of a German VAT claim
- Deutsche Bank named Best Global Flow House 2011 by Euromoney and No.1 Derivatives Dealer for third year running by Risk magazine

(1) Provision for credit losses

Sales & Trading debt and other products

Net revenues

In EUR m

Key features

Overall

- Significantly lower revenues in most flow products, as a result of low client volumes in uncertain macro-economic environment
- Partially offset by good performance in Foreign Exchange, Commodities and RMBS
- Named Best Global Debt House and Best Global Emerging Market Debt House by Euromoney

FX / Money Markets / Rates

- FX revenues higher delivering best third quarter ever - achieved record quarterly client volumes
- RMBS higher due to business realignment and absence of prior year losses

Credit

- Low client volumes and widening credit spreads resulted in substantially lower revenues in flow credit
- Partially offset by good performance in client solutions

Emerging Markets

- Solid revenues due to strong performance across all regions

Commodities

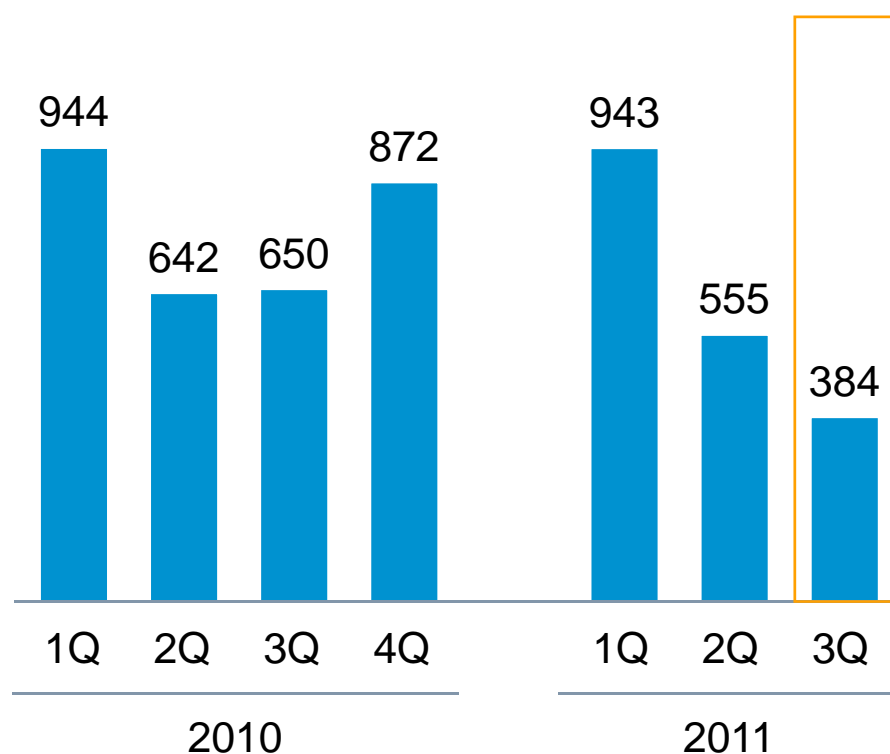

- Best ever third quarter driven increased client flow and good performance in precious metals, oil and gas

Sales & Trading equity

Net revenues

In EUR m

Key features

Overall

- Significantly lower revenues reflecting extremely volatile equity markets and weak client activity, especially in Europe

Cash Equities

- Higher revenues due to increased market share and commissions in Europe and the US

Equity Derivatives

- Significantly reduced client activity and volatile market conditions led to substantially lower revenues

Prime Brokerage

- Solid revenues as client de-risking and lower seasonal activity were offset by flight to quality

Origination & Advisory

Net revenues

In EUR m

■ Advisory
■ Origination

Key features

Overall

- Macro environment impacted Origination activity with market-wide issuance levels down approximately 50%
- Ranked No.6 globally - very small gap to No.5
- No.1 in EMEA and No.5 in APAC

Advisory

- 3Q announced volumes consistent with previous eight quarters but EMEA activity down significantly
- Ranked No.6 globally, No.2 in EMEA and No.4 in Japan

Equity Origination

- Market volatility at very high levels, negatively impacting issuance levels
- Maintained No.1 ranking in EMEA, No.5 in APAC and No.3 in IPOs
- IPO pipeline continues to build as deals are delayed

Investment Grade

- Issuance levels down significantly
- No.1 in all international bonds (Thomson Reuters)
- No.1 in all bonds in Euros (Thomson Reuters)

High Yield / Leveraged Loans

- High Yield issuance down significantly
- No.5 globally in High Yield and Leveraged Loans
- High Yield No.3 globally, No.1 in EMEA, No.3 in Americas and No.4 in APAC

Note: Rankings refer to Dealogic (fee pool) and refer to Jan-Sep 2011 unless otherwise stated; figures may not add up due to rounding differences; EMEA = Europe, Middle East and Africa

CIR, in %	68	62	68		
RoE, in %	43	51	33		

- Strong performance across all major products
- Increased fee income reflecting success of business model in low interest rate environment
- Interest revenues benefit from slightly higher overnight interest rates in Asia and Euro area y-o-y
- Record quarter in Trade Finance driven by continued growth in client volumes
- Ranked amongst top 3 providers of Cash Management for institutional clients across all regions for USD/EUR⁽⁵⁾
- Noninterest expenses adversely impacted by Jan-Sep adjustment related to ABN AMRO acquisition

(1) Negative goodwill (provisional at that time) from the commercial banking activities acquired from ABN AMRO in the Netherlands and consolidated since 2Q2010

(2) Related to complexity reduction program and CIB integration; includes severance payments booked directly in GTB and allocations from infrastructure

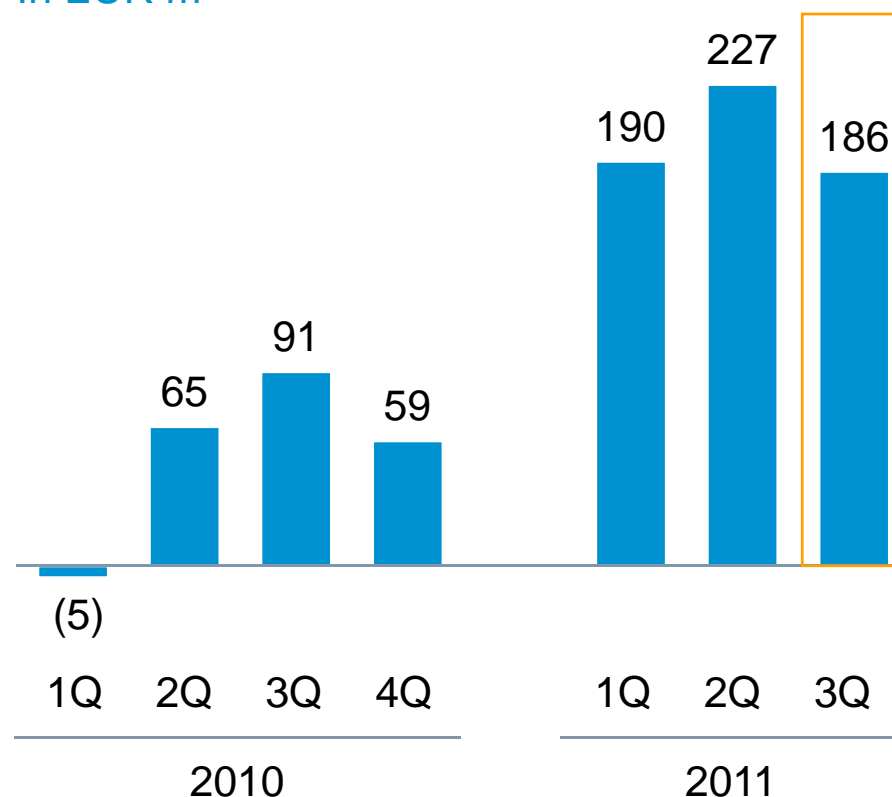

(3) Provision for credit losses (4) Includes impairment of EUR 29 m related to intangible assets (5) According to 2011 Euromoney Cash Management Survey

Net sovereign exposure on selected countries

In EUR bn

Net sovereign exposure

Key features

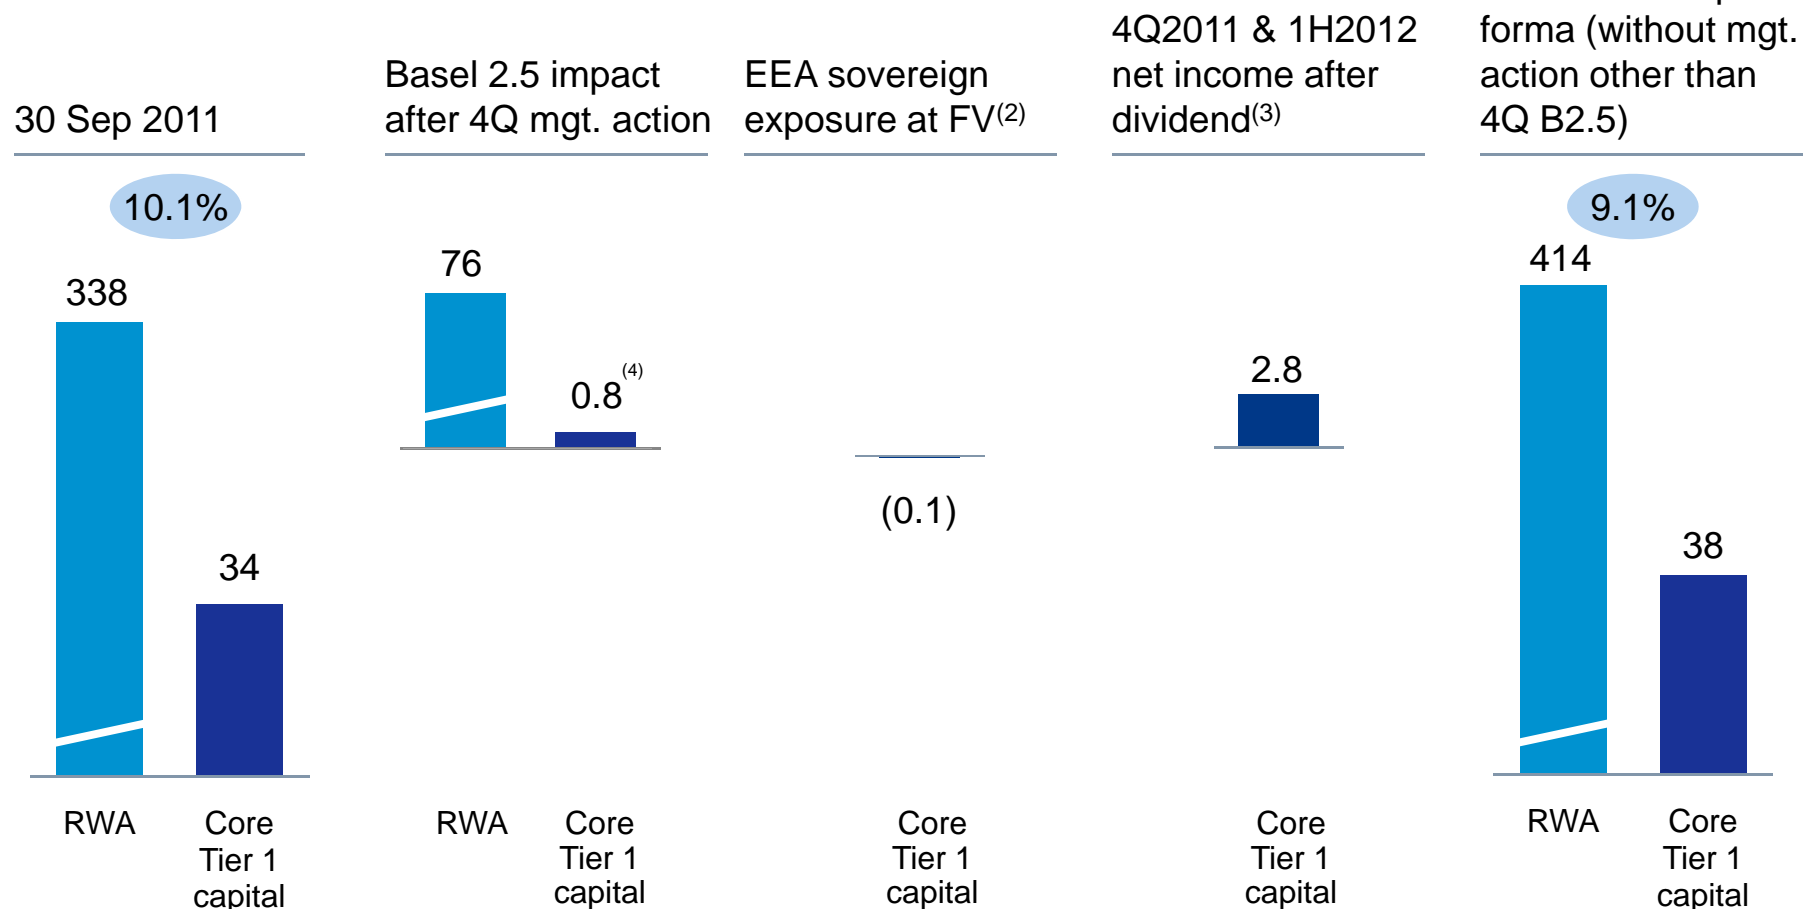

- Net exposure to GIIPS sovereigns significantly reduced since 31 Dec 2010
- Quarter-on-quarter movement driven by an increase in Italy (trading book-related exposures)
- Greek exposure is marked to market through P&L in the Group accounts and amounts to 46% of the notional value
- For the remainder, the impact of reflecting amortized cost and afs positions at fair value through profit or loss would be EUR 270 m pre-tax
- Excluding CDS hedging and derivatives collateral, the total GIIPS gross exposure would be EUR 4.8 bn

Funding and liquidity

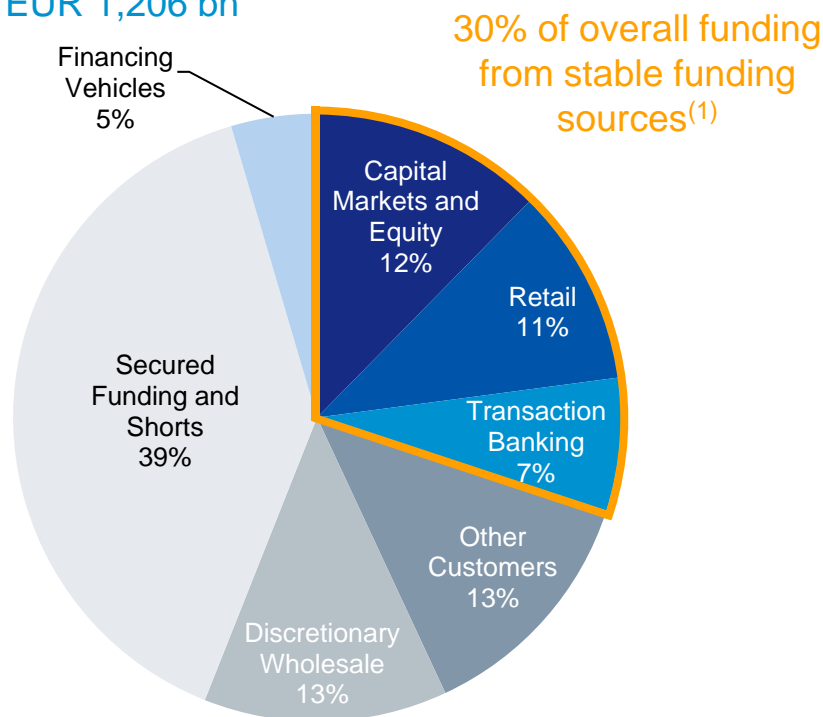

- Substantial rebalancing towards most stable funding sources
- Significant reduction in utilisation of wholesale funding
- High liquidity reserves to buffer against extreme stress scenarios
- Strong capital markets access and evenly balanced maturity profile
- Structurally long funded across all time buckets

Funding profile

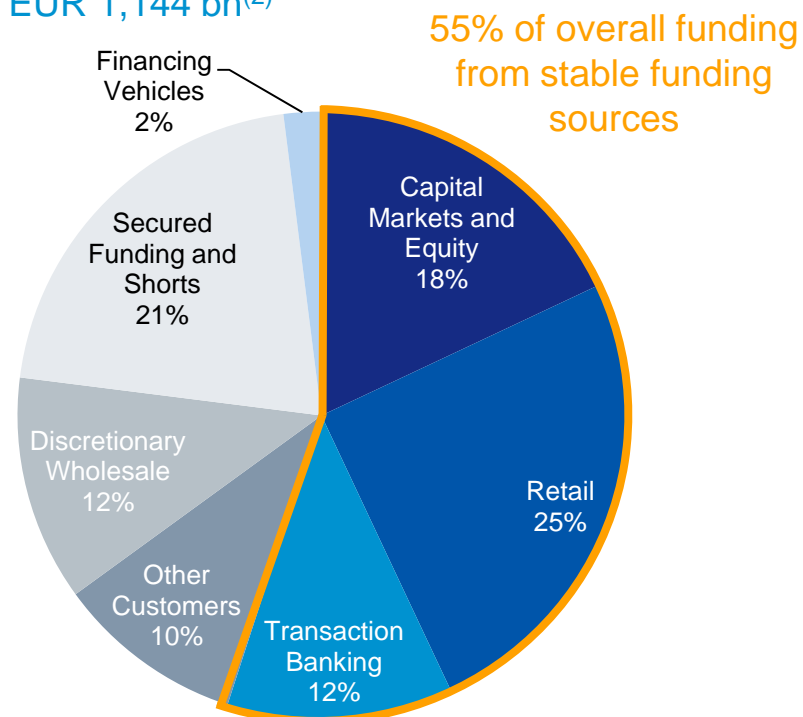

As at 31 Dec 2007

Total: EUR 1,206 bn

As at 30 Sep 2011

Total: EUR 1,144 bn⁽²⁾

Recalibrating of our funding profile is paying off: Maintain excellent access to broad range of funding sources

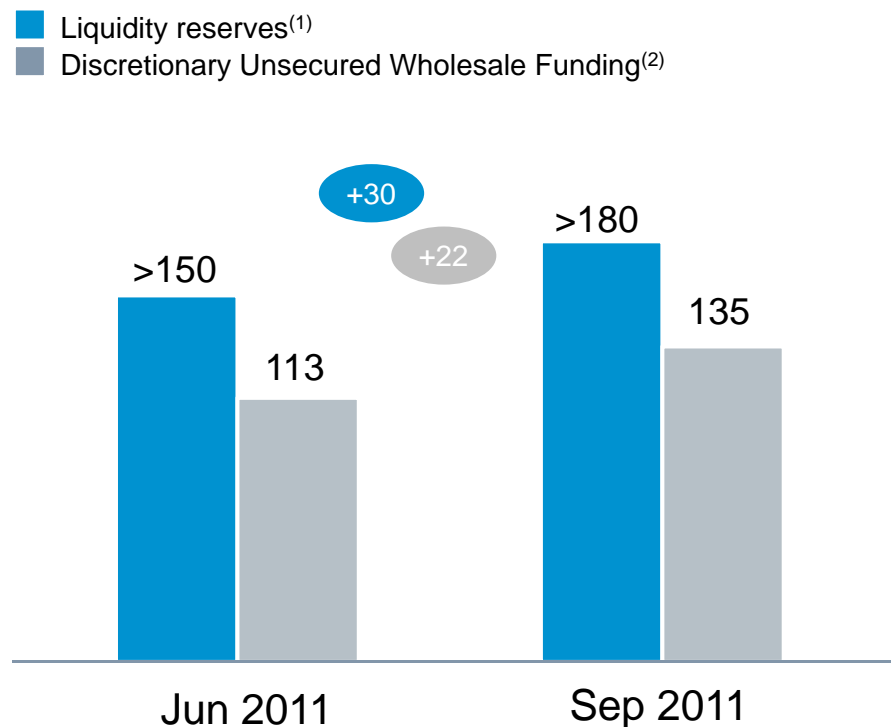

(1) Dec 2007 has been rebased to ensure consistency with Sep 2011 presentation
(2) Includes Postbank

Liquidity development

In EUR bn

Liquidity reserves composition

As at 30 Sep 2011

Liquidity reserves growth since last crisis

In EUR bn

Liquidity and funding update:

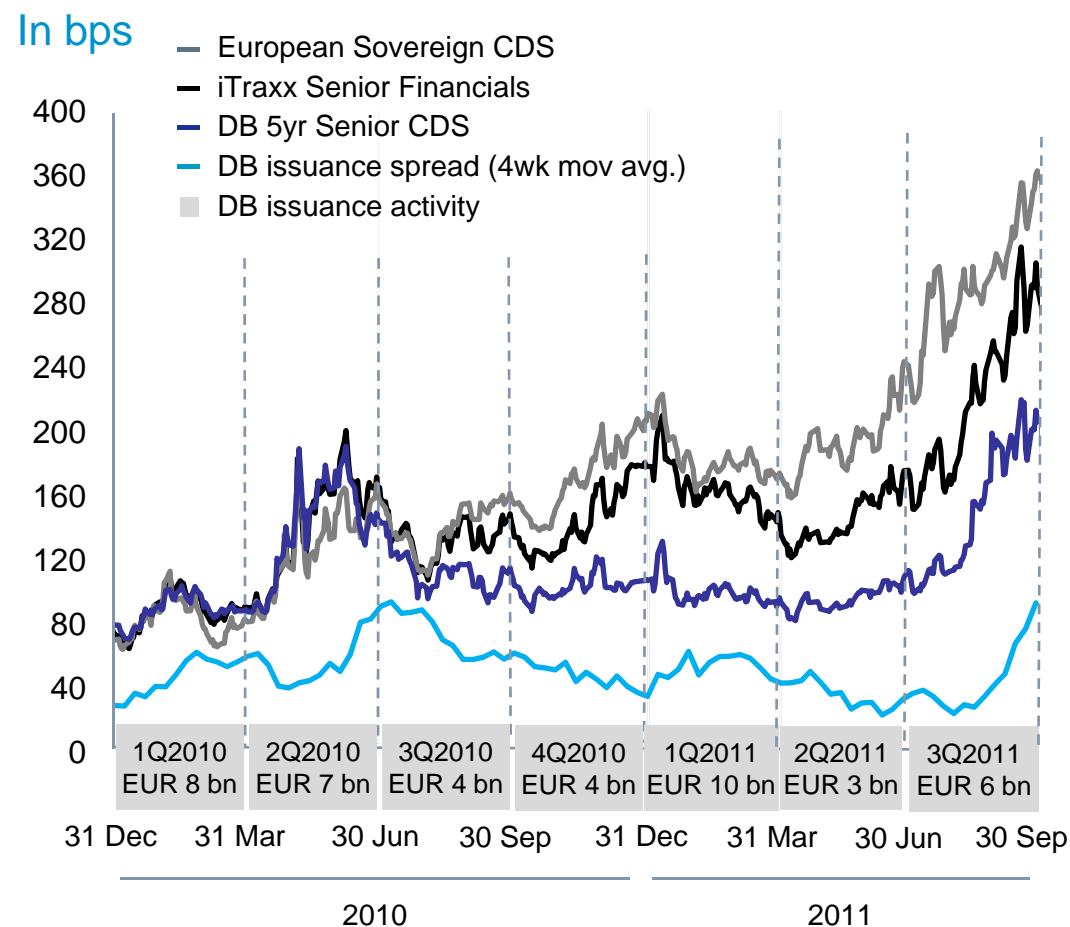

- No loss of wholesale funding access during 3Q2011
- Liquidity reserves significantly higher than total unsecured wholesale funding (UWSF)
- Vast majority comprises cash and highly liquid securities
- Liquidity reserves more than 2.5x higher than end 2007

- (1) The bank's liquidity reserves include (a) available excess cash held primarily at central banks, (b) unencumbered central bank eligible business inventory, as well as (c) the strategic liquidity reserve of highly liquid government securities and other central bank eligible assets. Excludes any positions held by Postbank
- (2) Includes Postbank. Postbank holds equivalent liquidity reserves which exceed its standalone UWSF
- (3) Includes Government, Agency, Government guaranteed
- (4) All eligible in regular Central Bank operations

Funding activities update

Funding cost development

Source: Bloomberg, Deutsche Bank

Observations

- Continued to issue at attractive levels in 3Q2011 (avg. spread of L+70bps)
- Recent EUR 1.75 bn 2y senior unsecured issuance demonstrates DB's market access in volatile conditions
- Total funding YTD at EUR 26 bn (100% plan complete)
- EUR 19 bn of issuance at an average spread of L+61 (~50 bps tighter than average CDS), of which EUR 5.6 bn sourced from public debt markets
- EUR 7 bn of deposits, we aim to grow total further until year end
- Proactive funding early in the crisis results in moderate funding requirements for 2012

Balanced cash flow profiles

DB capital market maturities⁽¹⁾

In EUR bn

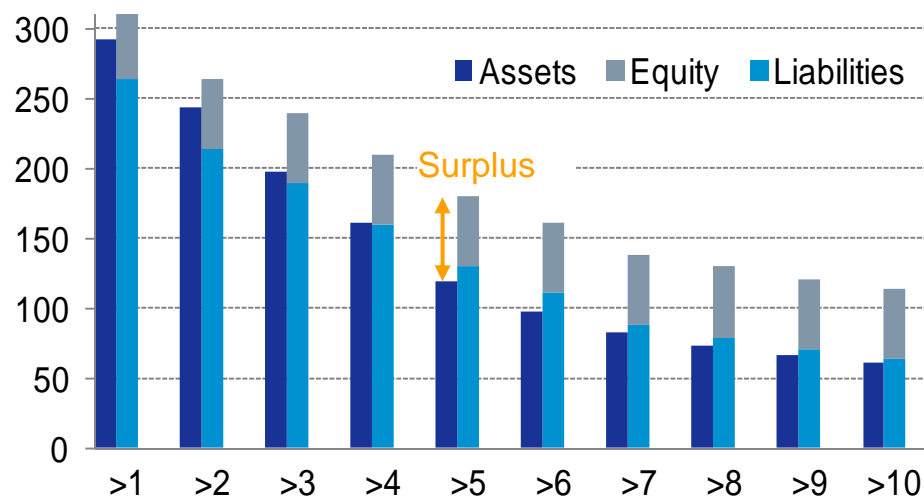

- Balanced outflows of capital markets issuance for the next 10 yrs do not exceed EUR 20 bn p.a
- Conscious decision, also during crisis, not to compromise duration of portfolio for short-term gains

(1) As at 30 Sep 2011

(2) As at 30 Jun 2011, excluding Postbank; incorporating model changes done in 3Q2011

Liquidity profile⁽²⁾

In EUR bn

- Our debt issuance and deposit-raising activities are calibrated against our term asset profile to ensure a funding surplus
- DB's structural liquidity profile is positive across all term buckets
- Postbank is also long-funded and has largely completed its 2011 funding plan

Summary and Outlook

- Strength in the face of very challenging conditions
- Investment Banking remains profitable even in extremely turbulent markets; classic banking businesses continue to produce record operating performance
- Capital ratios remain close to strongest-ever levels; pro-active management of capital base will seek to ensure alignment of shareholder interest with regulatory requirements
- Further strengthening of liquidity position and of substantial, high-quality funding base, despite stress conditions
- Continued focus on improving operational and risk efficiency; cost initiatives and integration of acquisitions well on track
- Significant uncertainties persist for world economy and financial markets with near-term outlook highly dependent on decisive resolution of sovereign debt problems and prevention of contagion into wider Eurozone economy and banking system

Deutsche Bank is committed to further optimizing its business model, notwithstanding potential changes in regulation, in the best interest of shareholders, and with a sustainable funding model, which will allow us to perform in all parts of our business

- (1) IFRS impaired loans include loans which are individually impaired under IFRS, i.e. for which a specific loan loss allowance has been established, as well as loans collectively assessed for impairment which have been put on nonaccrual status
- (2) Total on-balance sheet allowances divided by IFRS impaired loans (excluding collateral); total on-balance sheet allowances include allowances for all loans individually impaired or collectively assessed
- (3) The increase is driven by a technical effect: At consolidation, all loans classified as impaired by Postbank were classified as performing by DB as they were recorded by us at fair value. As a result, a further deterioration in credit quality of any loan classified as impaired by Postbank does not increase impaired loans reported by Postbank standalone but triggers impairment classification of the full loan amount in DB Group accounts. In addition, improvements in credit quality of loans classified as impaired by Postbank reduce PB's impaired loan volume but with no reduction being recorded in DB Group accounts

Cautionary statements

This presentation contains forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about our beliefs and expectations and the assumptions underlying them. These statements are based on plans, estimates and projections as they are currently available to the management of Deutsche Bank. Forward-looking statements therefore speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which we derive a substantial portion of our revenues and in which we hold a substantial portion of our assets, the development of asset prices and market volatility, potential defaults of borrowers or trading counterparties, the implementation of our strategic initiatives, the reliability of our risk management policies, procedures and methods, and other risks referenced in our filings with the U.S. Securities and Exchange Commission. Such factors are described in detail in our SEC Form 20-F of 15 March 2011 under the heading “Risk Factors.” Copies of this document are readily available upon request or can be downloaded from www.deutsche-bank.com/ir.

This presentation also contains non-IFRS financial measures. For a reconciliation to directly comparable figures reported under IFRS, to the extent such reconciliation is not provided in this presentation, refer to the 3Q2011 Financial Data Supplement, which is accompanying this presentation and available at www.deutsche-bank.com/ir.
