In EUR bn

Tier 1 capital

RWA

Note: Figures may not add up due to rounding differences

(1) EUR 9.8 bn equals gross issue proceeds of EUR 10.2 bn less fees and dividend accrual for new shares

(2) Includes Postbank net income effect of EUR 0.1 bn

(3) Postbank net effect consists of EUR 66.9 bn new Postbank RWA and a decrease of EUR 6.4 bn in relation to the existing Postbank investment eliminated on consolidation

Deutsche Bank's funding costs are a source of competitive advantage

Funding cost development

Source: Bloomberg

Observations

- Challenging market conditions due to economic concerns, regulatory developments and Eurozone difficulties
- DB CDS and funding spreads remained relatively stable and market access unaffected throughout 2010
- EUR 23 bn issued in 2010 at an average spread of L+66; 42% sold via retail networks
- Modest 2011 Funding Plan of EUR 26 bn (EUR 22 bn debt issuance, EUR 4 bn term retail deposits), flexibility to adjust split depending on market conditions; 25% completed YTD

Segment overview

Income before income taxes, in EUR m

- 4Q2010
- 4Q2009
- 4Q2010 impact from acquisitions

4Q2010 significant severance related to efficiency measures⁽⁴⁾

(1) ABN AMRO Netherlands impact

(2) PWM: Sal. Oppenheim / BHF impact

(3) Postbank net contribution in PBC (December 2010 only) after deduction of cost-to-achieve and other transaction related components

(4) Mainly related to complexity reduction program and CIB integration; direct severance booked in business and allocations of severance booked in infrastructure

Sales & Trading debt and other products

Net revenues

In EUR bn

- Charges related to Ocala Funding LLC
- Mark-downs
- Write-backs
- Net revenues

- Note: Prior periods have been adjusted due to a transfer between loan products and S&T (debt and other products) and due to a transfer between S&T (debt) and S&T (equity); EEMEA = Eastern Europe, Middle East and Africa
- (1) Includes net effect of losses related to write-downs on specific risks in our structured credit business of approx. EUR (300) m, offset by net mark-ups of EUR 263 m (mainly monolines)
- (2) 3Q2010 mark-downs of EUR (43) m have been adjusted to write-backs of EUR 32 m due to a methodology change

Key features

Overall

- Solid fourth quarter despite difficult market environment
- Lower credit and rates revenues q-o-q due to subdued customer activity partially offset by good results in FX, commodities, RMBS

FX / Money Markets / Rates

- Good FX performance with higher volumes q-o-q and y-o-y
- Uncertain market environment led to lower flow activity and lower demand for client solutions q-o-q and y-o-y in Rates

Credit

- Lower revenues due to significantly lower client activity as a result of sovereign risk concerns

Emerging Markets

- Good performance across most geographies although revenues were down q-o-q due to lower client activity in an uncertain macro environment

Commodities

- Strong performance q-o-q and y-o-y due to higher volatility and good results in base and precious metals

Sales & Trading equity

Net revenues

In EUR m

Note: Prior periods have been adjusted due to a transfer between loan products and S&T (equity)

Key features

Overall

- Good performance from all business areas q-o-q and y-o-y reflecting successful recalibration of the platform

Cash Equities

- Significantly higher revenues q-o-q and y-o-y reflecting increased client activity and higher commissions, especially in Asia
- Driven by improved primary issuance environment and DB's role in a number of major IPOs, illustrating better co-ordination across primary and secondary business as a result of integration

Equity Derivatives

- A record fourth quarter reflecting increased sales of index products and structured derivatives, especially in Europe
- Good performance also reflects successful recalibration of the business after the crisis

Prime Brokerage

- Stable revenues q-o-q but higher y-o-y reflecting solid performance and increased balances in a more competitive environment

Origination & Advisory

Net revenues

In EUR m

- Advisory
- Origination

Note: Rankings refer to Dealogic (fee pool) and refer to December 2010 YTD unless otherwise stated; figures may not add up due to rounding differences; EMEA = Europe Middle East and Africa

Key features

Overall

- Strong fourth quarter performance
- Achieved target to become Top 5 during 2010 and gained the most market share of any leading global IB
- Top 5 in all products, with notable improvements in ECM and M&A and better co-ordination across the investment bank

Advisory

- Highest quarterly revenues since 3Q2008
- No. 5 globally by fees - best rank ever
- No. 1 in EMEA and market share in U.S. more than doubled
- Well positioned to take advantage of increased cross-border and Emerging Markets activity

Equity Origination

- Highest quarterly revenues since 2Q2007
- No. 5 globally, improvement from No.9 in 2009
- No. 1 in EMEA and No. 5 in U.S.
- DB book ran the three largest IPOs in 2010 (AIA, ABC, GM)

Investment Grade

- No. 3 in global investment grade corporate debt
- No. 3 in all international bonds

High Yield / Leveraged Loans

- No. 4 globally, No. 2 in EMEA

RoE, in %	22	53	63	58	68

- All businesses generated strong revenues in 4Q2010 including the best ever quarter in Trust & Securities Services
- Record FY revenues (even excluding the positive impact of the ABN AMRO acquisition)
- 4Q2010 efficiency measures include significant severance related to complexity reduction and integration initiatives
- Awarded 'Cash Management House of the Year' by The Banker magazine

(1) EUR 208 m gain representing negative goodwill (provisional at that time) from the commercial banking activities acquired from ABN AMRO in the Netherlands
 (2) Related to complexity reduction program and CIB integration; severance booked directly in GTB and allocations of severance from infrastructure
 (3) Provision for credit losses

AWM: Influenced by investments

Income before income taxes, in EUR m

(1) Specific items for PWM in 2009 of EUR (72) m reflect ARP/S settlement, severance and Sal. Oppenheim acquisition related costs; specific items for AM in 2009 of EUR (63) m reflect significant RREEF impairments, seed coinvest impairments, money market fund injections, impairments / reversal of impairments in intangible assets, severance and Sal. Oppenheim acquisition related costs, for details please refer to page s 17 and 18

(2) Includes direct severance booked in business and allocations of severance booked in infrastructure

Memo: IBIT ex Sal. Oppenheim / BHF	49	47	(24)	200	36
Invested assets ⁽³⁾	323	313	190	323	190
Net new money ⁽³⁾	(0)	(3)	3	(1)	7

PWM ex Sal. Oppenheim / BHF:

- Higher revenues across all businesses for 4Q2010
- EUR 208 bn invested assets exceed pre-crisis level
- Net new money of EUR 1 bn for FY2010

Sal. Oppenheim / BHF:

- Negative IBIT in 2010 was mainly driven by operating losses, wind down activities of non-core business and alignment expenses, as well as valuation effects due to interest and FX development and impairment due to classification as held-for-sale

Private & Business Clients

Income before income taxes

In EUR m

- Severance⁽¹⁾
- Net Postbank contribution⁽²⁾
- xx PBC reported

- (1) Includes direct severance booked in business and allocations of severance booked in infrastructure
- (2) Consolidated since 3 December 2010; net contribution after deduction of cost-to-achieve and other transaction related components
- (3) Provision for credit losses

Key features

In EUR m

	4Q10	3Q10	4Q09	FY10	FY09
Revenues	1,824	1,455	1,391	6,136	5,576
Provisions ⁽³⁾	(240)	(165)	(198)	(746)	(790)
Noninterest exp.	(1,354)	(1,045)	(1,146)	(4,493)	(4,328)
IBIT	222	245	47	890	458
CIR, in%	74	72	82	73	78
RoE, in %	18	30	5	23	13

PBC (ex Postbank consolidation impact):

- Strong revenue momentum in Deposits and Investment Products
- Net new money inflows of EUR 4 bn mainly driven by new deposit campaign
- Provision for credit losses significantly below prior year reflecting disciplined execution of portfolio measures, strengthened collections and improved economic environment
- 4Q2010 cost base significantly below prior year, even after adjustment of severances which affected 4Q2009

Agenda

1 Group results

2 Segment results

3 Key current issues

Compensation update

New regulations

- German Institutsvergütungsverordnung (InstVV) came into effect on 12 October 2010, replacing guidelines from 2009
- Regulation is based on CRD 3 and CEBS guidelines
- Stricter rules compared to overseas regulatory activities

Alignment of compensation structures

- As with previous rules, existing compensation structures have been aligned to comply with the new regulations, where necessary
- Sound review process to identify regulated staff ('risk takers')
- For regulated staff, we apply the required deferral percentages (starting at 40% minimum, going up to 75% and above), introduced additional retention period for deferred awards and 50% of upfront component and new claw-back features based on divisional pre-tax profit
- For non-regulated staff, the deferred compensation structures have remained broadly the same but entry threshold has been set at EUR 75 k

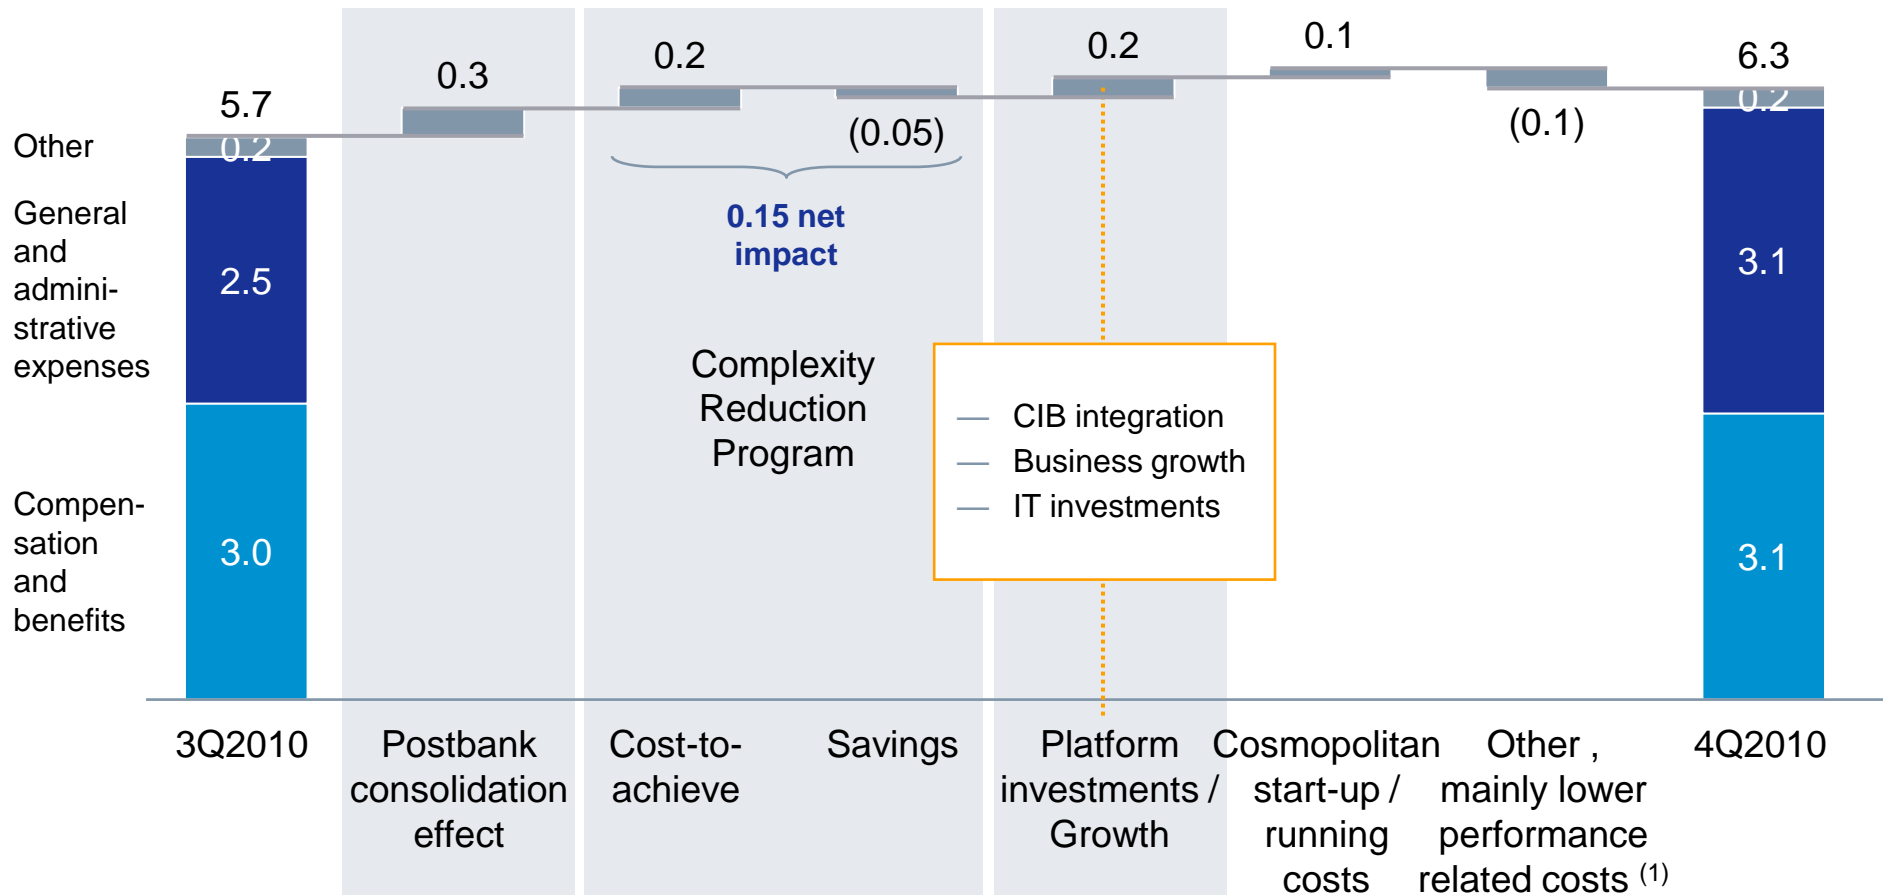

February 2011 awards

- Total deferrals in Feb 2011 at EUR 2.1 bn, vesting over 3 years, vs. 2.1 bn in Feb 2010
- Deferred equity / cash split has been changed to 50/50 (was 75/25 in 2010)

Cost development 4Q2010 vs. 3Q2010

Total non-interest expenses, in EUR bn

Note: Figures may not add up due to rounding differences
 (1) Impairments of goodwill and intangibles, policyholder's benefits claims, remaining cost items

Cost and staff development 2010 vs. 2009

Cost development

Total non-interest expenses, in EUR bn

Staff development

Full-time equivalents

Note: Figures may not add up due to rounding differences

(1) Thereof parts of ABN AMRO EUR 0.3 bn, Sal. Oppenheim / BHF EUR 1.0 bn, Postbank EUR 0.3 bn.

(2) Net impact of UK bank pay roll tax, litigation settlement with Huntsman, repurchase of investment products, DWS Scudder intangibles write-back

(3) Incremental amortization of deferred compensation

(4) Impairments of goodwill and intangibles, policyholders benefits claims, remaining cost items.

Cost efficiency measures

Complexity Reduction Program, CIB integration and Postbank integration

In EUR m

Postbank: Capital consumption almost in line with estimate

In EUR bn

Capital consumption items

In EUR bn	As of Change of Control (22% take-up)	As per IR Roadshow (outside-in, 21% take-up)
Tier I consumption from PB's RWAs ⁽¹⁾	(6.9)	(7.1)
Regulatory goodwill & intangible assets ⁽²⁾	(2.7)	(1.9)
Tier I capital deduction items	(0.3)	(1.3)
Capital effect from Put/Call revaluation	(0.4)	(0.2)
Minority interest	0.2	0.4
PB hybrid capital	1.6	1.6
Transaction related P&L effects ⁽³⁾	(1.8)	(1.8)
Existing Tier I capital consumption ⁽⁴⁾	2.4	2.4
Incremental Tier I capital consumption from consolidation	(7.8)	(7.7)

Background

- ▶ Goodwill increased due to higher net FVAs primarily from market movements, insight into Postbank and methodological differences
- ▶ Lower Tier I capital deductions after application of credit related FVAs to Postbank expected loss shortfall. Further benefit from FVAs taken against securitization deductions
- ▶ Minority interest and Put/Call effect are reduced since higher net FVAs result in lower Postbank tangible equity (post PPA)

Note: Figures may not add up due to rounding differences

- (1) At 10% target Tier I ratio. Based on Postbank RWA as of change of control; EUR 6.7 bn capital consumption based on December Postbank RWA
- (2) Accounting goodwill is EUR 0.9 bn higher due to DTL on IAs and non-banking goodwill
- (3) Consists of cumulated equity pick-ups until consolidation and revaluation charge recognized in 3Q2010
- (4) Pre consolidation as per IR Roadshow in September 2010 (includes RWA and capital deductions eliminated as a result of consolidation)

Mortgage Related Activities

In USD billions

Mortgage Related Product	Whole Loan Sales	Securitization
Role	DB sells mortgages originated by a 3 rd party or DB affiliate <i>(e.g. mortgage loans originated by MortgageIT)</i>	DB deposits mortgages originated by a 3 rd party or DB affiliate <i>(e.g. MortgageIT)</i> into a trust which issues certificates to investors
Amounts Sold or Securitized 2005 - 2008	61.0	79.0
Current Outstanding Mortgage Repurchase Demands <i>(Based on original principal balance)</i>	0.588	
<div style="background-color: #e6f2ff; padding: 5px; border: 1px solid #0070c0;"> <p>Current reserves are adequate</p> </div>		
Historical Mortgage Repurchase Demands Settled <i>(Based on original principal balance)</i>	1.8	
Historical Mortgage Repurchase Demands Settled & Releases for Potential Claims <i>(Based on original principal balance)</i>	21.9	

Key Points

- DB or its affiliates have also acted as an underwriter of USD 110 bn of U.S. RMBS for third-party originators
- RMBS litigations are in early stages and those actions continue to be defended vigorously
- DB does not have a servicing arm

				– Centralize Meeting & Events planning

CIB integration

2011 IBIT impact
in EUR bn

		Cost synergies	Revenue synergies
Streamline	<ul style="list-style-type: none"> — Corporate coverage: Eliminate duplication of coverage teams — Product: Eliminate duplication of risk taking activity across Corporate Finance and Markets, centralise lending activity — Business Management: Right-sizing of business management functions and tighter controls around policies and procedures — Infrastructure: Improved engagement, review of change-the-bank programs across CIB 	~0.35 ⁽¹⁾	
Connect	<ul style="list-style-type: none"> — Cross sell: Increased cross-sell through improved corporate coverage model — Risk: Revenue synergies from closer alignment of primary and secondary and better risk management and resource allocation — Platforms: More co-ordinated electronic execution and bringing together of best practices from Markets and GTB 		~0.3
Grow	<ul style="list-style-type: none"> — Markets: Close gaps in Equities and Commodities while maintaining leadership in other areas — Corporate Finance: Consistent Top-5 ranking across target areas for improvement e.g. US, UK, Asia, FIG, NRG — Global Transaction Banking: Increase fee-based revenues focusing on complex corporate and institutional clients while leveraging our strong franchise in Asia 		

Note: FIG = Financial Institutions Group, NRG = Natural Resources Group
(1) Excludes cost-to-achieve of EUR 0.15 bn

Postbank Consolidation: Purchase Price Allocation (PPA)

Concept of PPA

- IFRS 3 requires an acquirer to perform a Purchase Price Allocation (PPA) and take **all** assets & liabilities at Fair Value (FV) on its balance sheet upon change of control (one-time requirement)
- Based on the accounting requirements for Postbank more than 80% of Postbank's assets and liabilities are carried at amortized cost and not at Fair Value
- The resulting differences between PB's carrying value and DB's Fair Value from PPA are recognized through so called Fair Value Adjustments (FVA) upon consolidation
- In addition, incremental Intangible Assets (IA) have to be identified and recorded in Deutsche Bank's balance sheet

Impact from PPA

- FVAs directly impact goodwill calculation and thereby drive the capital consumption for Deutsche Bank upon consolidation
- Subsequent amortisation of FVAs and Intangible assets impact future results of Deutsche Bank PBC along with the amortization pattern of the underlying assets and liabilities

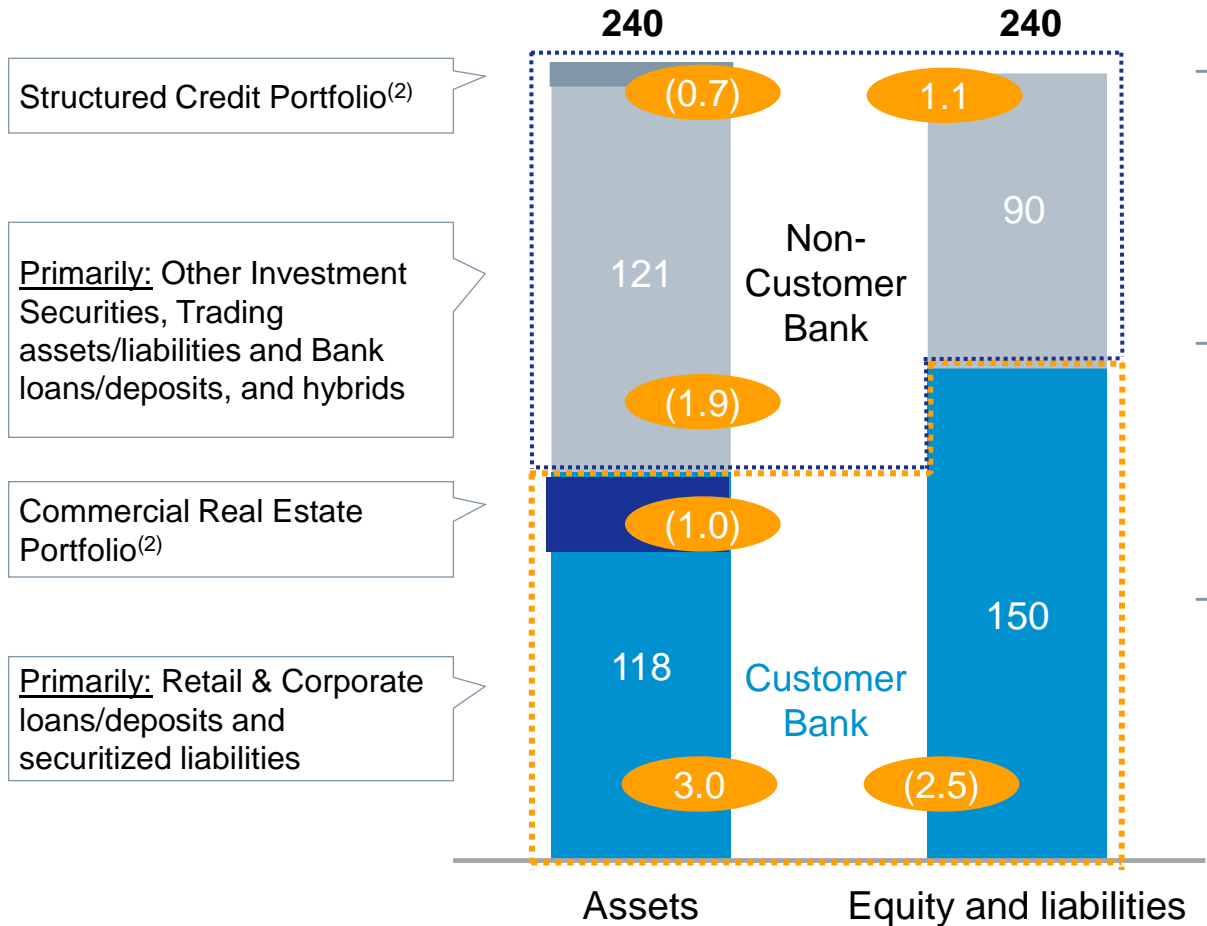

Fair Value Adjustments in context

Postbank balance sheet as of change of control⁽¹⁾, in EUR bn

xx

Fair Value adjustments (pre-tax)

Structured Credit Portfolio⁽²⁾

Primarily: Other Investment Securities, Trading assets/liabilities and Bank loans/deposits, and hybrids

Commercial Real Estate Portfolio⁽²⁾

Primarily: Retail & Corporate loans/deposits and securitized liabilities

- Postbank carries more than 80% of its assets and liabilities at amortized cost. For PPA purposes all assets and liabilities are to be fair valued for first-time consolidation in DB's balance sheet
- PPA provides p&l protection against potential future impairments / losses of up to EUR 4.0 bn⁽³⁾ compared with Postbank's carrying values → already reflected in DB's capital base
- Amortization of positive FVAs will burden future results

(1) Before elimination of intercompany balances and other consolidation adjustments
 (2) Nominal values of EUR 4.6 bn for SCP and EUR 17.8 bn for CRE portfolio as per 3Q2010
 (3) Including the recognition of PB's existing revaluation reserve → EUR 4.0bn = 1.0bn (CRE) + 2.6bn (Investment Securities incl. SCP) + 0.5bn (revaluation reserve)

Overview

- Various countries considering the introduction of bank levies as a consequence of the financial crisis with no co-ordination at an international level
- To date levies have been proposed in Germany, U.K, France, Austria, Portugal, Hungary and Sweden in Europe. South Korea and the U.S. have also proposed levies, though U.S. levy has no timetable for advancement
- Impact assessment of German and U.K. levies on DB's main hubs requires legislation to be finalised, clarification of German cap and method to avoid double taxation

Germany (status)

- Implementation 31st December 2010 tied to broader restructuring law; detail regulation still under debate
- Applied to all German domiciled credit institutions (not to Foreign banks with German branches)
- Based on HGB balance sheet (minus 'equity' and 'liabilities to customers') and nominal value derivatives
- Charge based on 4bps on b/s; distinct charge on nominal derivative positions of 0.015bps
- Capped at 15% of HGB annual profit. Amount in excess of cap to be paid in future years

U.K. (status)

- Final legislation drafted; enactment expected July 2011 with retrospective effect 1st Jan 2011
- Applied to all UK domiciled banking groups and Foreign banks with U.K. branches
- Based on IFRS balance sheet minus Tier 1 capital, insured deposits and liquid assets; 50% charge on uninsured deposits
- Charge based on 5bps in 2011 increasing to 7.5bps from 2012
- Credit for foreign branches facing double taxation (expected)

Loan book

In EUR bn

xx IAS 39 impact on CIB loan book

Germany excl. Financial Institutions:

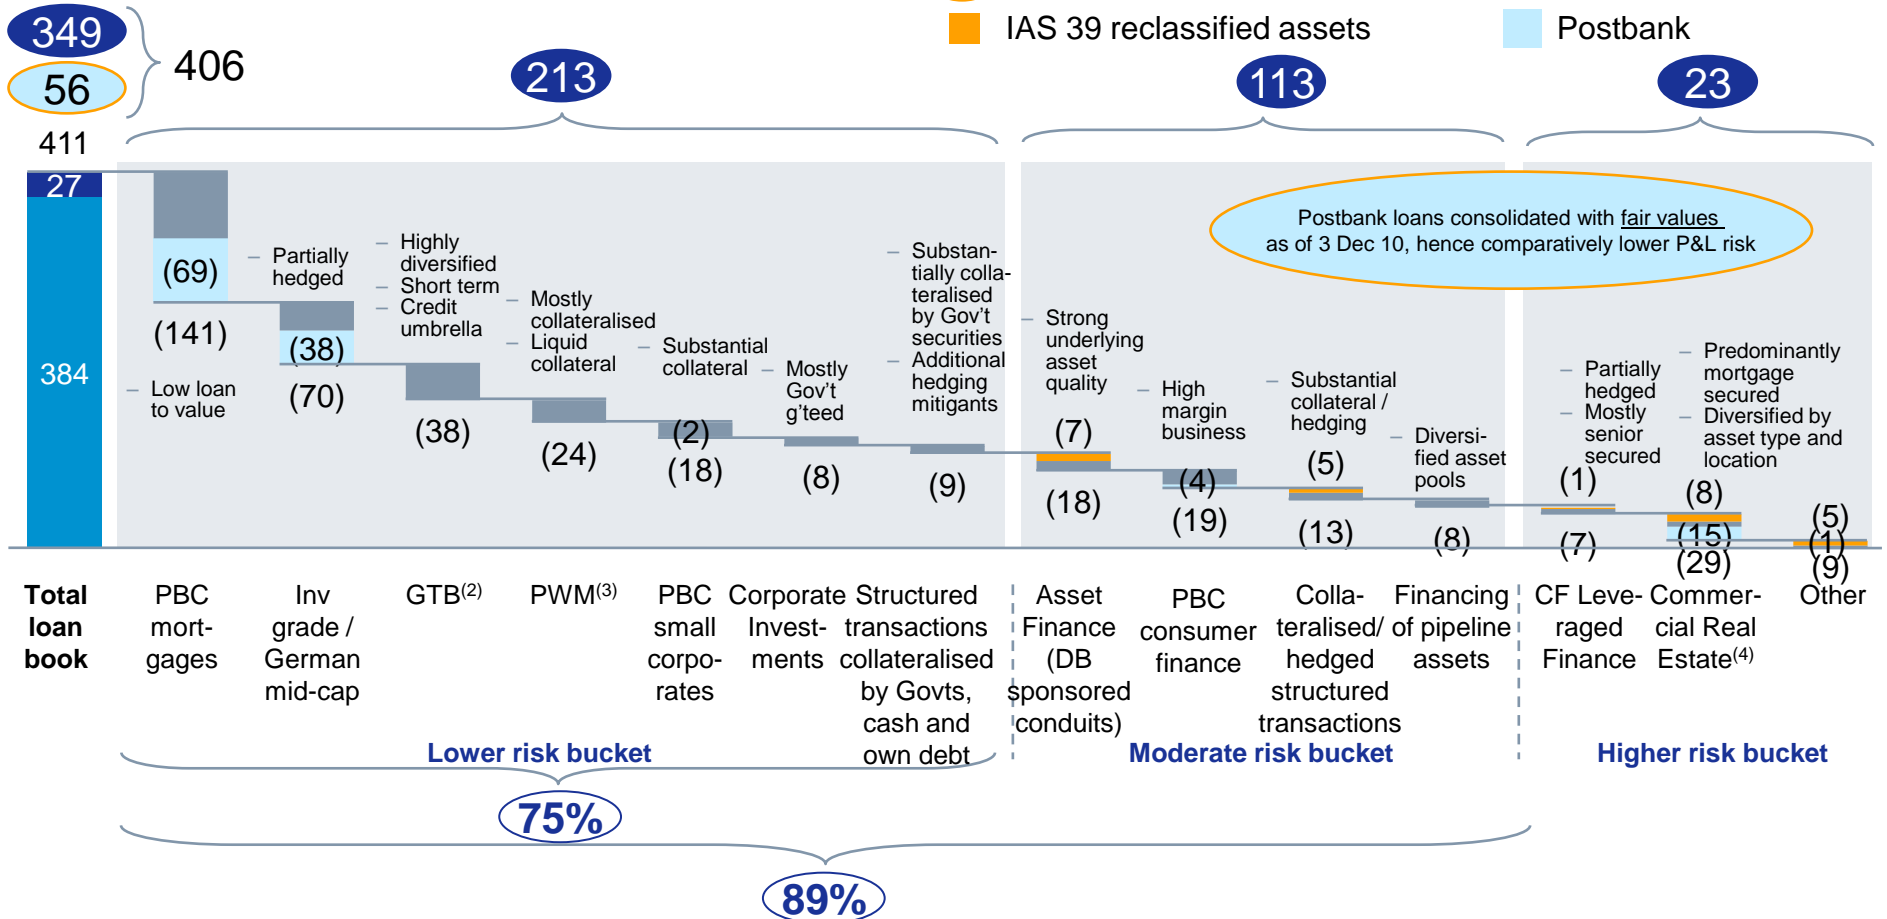

- Note: Loan amounts are gross of allowances for loan losses; figures may not add up due to rounding differences
- (1) PCAM includes loans related to Sal. Oppenheim / BHF of EUR 5 bn as of Mar and June 2010, EUR 4 bn as of Sep 2010 and EUR 2 bn as of Dec 2010
 - (2) CIB includes loans related to the consolidation of parts of ABN AMRO's corporate and commercial banking activities in the Netherlands of EUR 10 bn
 - (3) Of which EUR 87 bn are Postbank related

Composition of loan book and provisions by category

In EUR bn, as of 31 Dec 2010

- XX DB 4Q2010 provision for credit losses ex. PB⁽¹⁾, in EUR m
- XX Postbank (PB) 4Q2010 provision for credit losses⁽¹⁾, in EUR m
- IAS 39 reclassified assets
- Postbank

Note: Loan amounts are gross of allowances for loan losses; figures may not add up due to rounding differences

(1) Includes provision for off-balance sheet positions

(2) Includes loans related to ABN AMRO Netherlands of EUR 10 bn

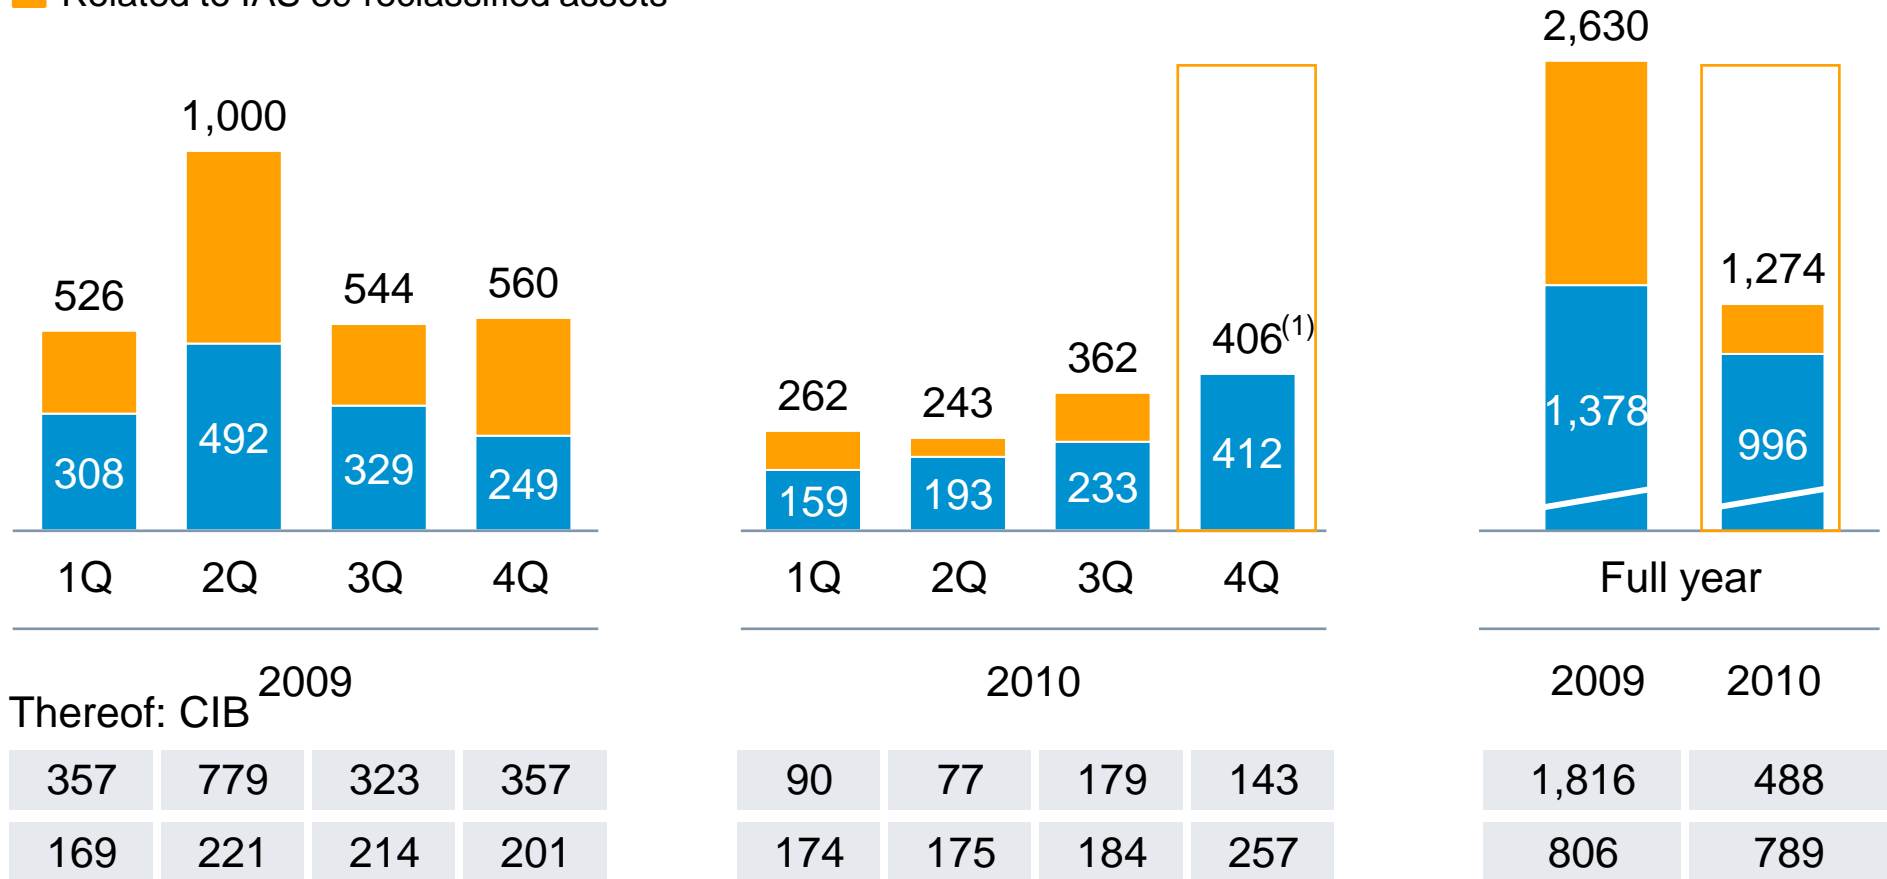

(3) Includes loans of EUR 2 bn in PWM related to Sal. Oppenheim / BHF acquisition

(4) Includes loans from CMBS securitizations

Provision for credit losses In EUR m

■ Related to IAS 39 reclassified assets

Note: Divisional figures do not add up due to omission of Corporate Investments; figures may not add up due to rounding differences

(1) Includes IAS 39 reclassified assets of EUR (6) m

Impaired loans

In EUR bn

xx IAS 39 impact – IFRS impaired loans

■ IFRS impaired loans⁽¹⁾

■ IFRS impaired loans coverage ratio⁽²⁾

- (1) IFRS impaired loans include loans which are individually impaired under IFRS, i.e. for which a specific loan loss allowance has been established, as well as loans collectively assessed for impairment which have been put on nonaccrual status
- (2) Total on-balance sheet allowances divided by IFRS impaired loans (excluding collateral); total on-balance sheet allowances include allowances for all loans individually impaired or collectively assessed

Pro-forma impact of IAS 39 reclassifications

In EUR m

	FY2008	FY2009	1Q2010	2Q2010	3Q2010	4Q2010	Total FY2010	Total FY2008 - FY2010

Net pro-forma impact on reported income before income taxes	3,327	(255)	(407)	(83)	(257)	(10)	(756)	2,316
Fair value impact on equity relating to assets previously classified as AfS	1,826	(1,216)	(125)	(70)	(100)	(30)	(325)	285
Total pro-forma impact on shareholders' equity	5,153	(1,472)	(532)	(152)	(357)	(40)	(1,081)	2,601
Carrying value at period end⁽²⁾	34,424	33,554	33,009	33,906	31,063	26,682		

Note: At the reclassification dates, assets had a carrying value of EUR 37.9 bn; incremental RWAs were EUR 4.4 bn; figures may not add up due to rounding differences

(1) Net of provision for credit losses

(2) Net of allowances

Monoline update

Reduction since 1Q2009 peak

In EUR bn⁽¹⁾

Fair value after CVA CVA

Exposure adequately reserved

In EUR bn, as of 31 Dec 2010

Fair value after CVA CVA

Note: Tiering is an internal Credit Risk Management designation (Tier 1 = strongest / Tier 4 = weakest); figures may not add up due to rounding differences
 (1) Excludes counterparty exposure to monoline insurers that relates to wrapped bonds

Value of Level 3 assets⁽¹⁾

Asset classes

In EUR bn

Note: Total includes PCAM; figures may not add up due to rounding differences

(1) IFRS netting convention applied

(2) Designated at fair value through profit or loss

(3) From derivative financial instruments

4Q2010 development

- No significant movement in the Group level 3 asset balance between 3Q and 4Q2010
- Increase in AFS balance mainly due to the consolidation of Postbank; this has been offset by a reduction in the fair value of derivatives balances due to tightening credit spreads

Level 3 assets in % of IFRS total fair value assets

Funding and liquidity

In EUR bn

Funding sources overview

Liquidity position

- Postbank acquisition significantly adds to stable funding sources
- Liquidity Reserves⁽³⁾ exceed EUR 145 bn as of year end 2010
- Modest Funding Plan for 2011 of EUR 26 bn, comprising EUR 22 bn debt issuance and EUR 4 bn term retail deposits

Note: Reconciliation to total balance sheet: Derivatives & settlement balances EUR 706 bn (EUR 911 bn), add-back for netting effect for Margin & Prime Brokerage cash balances (shown on a net basis) EUR 61 bn (EUR 64 bn), other non-funding liabilities EUR 63 bn (EUR 63 bn) for 31 December and 30 September 2010, respectively; figures may not add up due to rounding

(1) Other includes fiduciary, self-funding structures (e.g. X-markets), margin / Prime Brokerage cash balances (shown on a net basis)

(2) Includes ABCP conduits

(3) Liquidity Reserves comprise: Unencumbered central bank eligible business inventory, available excess cash held primarily at central banks, and the strategic liquidity reserve of highly liquid government securities and other central bank eligible assets; figure for Liquidity Reserves excludes any positions held by Postbank

Cautionary statements

This presentation contains forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about our beliefs and expectations and the assumptions underlying them. These statements are based on plans, estimates and projections as they are currently available to the management of Deutsche Bank. Forward-looking statements therefore speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which we derive a substantial portion of our revenues and in which we hold a substantial portion of our assets, the development of asset prices and market volatility, potential defaults of borrowers or trading counterparties, the implementation of our strategic initiatives, the reliability of our risk management policies, procedures and methods, and other risks referenced in our filings with the U.S. Securities and Exchange Commission. Such factors are described in detail in our SEC Form 20-F of 16 March 2010 under the heading “Risk Factors.” Copies of this document are readily available upon request or can be downloaded from www.deutsche-bank.com/ir.

This presentation also contains non-IFRS financial measures. For a reconciliation to directly comparable figures reported under IFRS, to the extent such reconciliation is not provided in this presentation, refer to the 4Q2010 Financial Data Supplement, which is accompanying this presentation and available at www.deutsche-bank.com/ir.
