AWM: Restoring operating leverage at lower market levels

Income before income taxes

In EUR m

Outlook & prospects

Asset Management

- Reposition European MM fund exposure
- Right-size RREEF
- Downsize hedge fund platform
- Cost savings in mid / back office

Private Wealth Management

- New advisory and product opportunities
- Opportunities to capture market share
- Cost savings measures
- Efficiency improvements

PBC: Implementation of 'Growth and Efficiency' program

Income before income taxes

In EUR m

Business model

- **Advisory banking:** Position for recovery in investment products via selective investments
- **Consumer banking:** Position for margin compression via cost-efficiency
- Leverage customer capture of prior year(s)

Efficiency program

- Middle-office consolidation
- Integration of credit operations
- Back-office efficiency

Postbank co-operation

- Product and distribution synergies
- Joint purchasing / infrastructure synergies
- Expected run-rate pre-tax impact of EUR ~120-140 m within 3-4 years, split ~ 50%/50% between DB / Postbank

Deutsche Postbank: Considerable strategic optionality

Clients of German retail banks as of 2008, in million*

Cautionary statements

Unless otherwise indicated, the financial information provided herein has been prepared under International Financial Reporting Standards (IFRS).

This presentation contains forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about our beliefs and expectations and the assumptions underlying them. These statements are based on plans, estimates and projections as they are currently available to the management of Deutsche Bank. Forward-looking statements therefore speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which we derive a substantial portion of our revenues and in which we hold a substantial portion of our assets, the development of asset prices and market volatility, potential defaults of borrowers or trading counterparties, the implementation of our strategic initiatives, the reliability of our risk management policies, procedures and methods, and other risks referenced in our filings with the U.S. Securities and Exchange Commission. Such factors are described in detail in our SEC Form 20-F of 24 March 2009 under the heading “Risk Factors.” Copies of this document are readily available upon request or can be downloaded from www.deutsche-bank.com/ir.

This presentation also contains non-IFRS financial measures. For a reconciliation to directly comparable figures reported under IFRS, to the extent such reconciliation is not provided in this presentation, refer to the 1Q2009 Financial Data Supplement, which is accompanying this presentation and available at www.deutsche-bank.com/ir.
